Introducing Baldwin's newest addition to its best-selling Estate portfolio, the **SANTA MONICA**.

Developed exclusively by Baldwin's renowned in-house team of designers, Santa Monica is stunning in its simplicity and clarity of form, and puts a visual emphasis on vertical and horizontal lines with a keen focus on pure geometry without sacrificing comfort. Its multi-point design appeals to a variety of applications and the depth of roses and levers provide maximum design flexibility. Santa Monica is available in five levers, four rosettes, one handle set available in both mortise and multi point options, and one square deadbolt with single and double configurations.

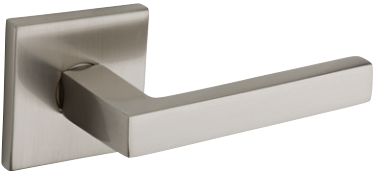

Each piece boasts the Baldwin quality and craftsmanship and is made of solid brass and available in 20 different finishes*. The brand's unmatched heritage of design and quality forms the perfect backdrop to this striking new offering. Unparalleled quality, dedication to the details, and a touch of artistry make Santa Monica distinctively Baldwin.

Baldwin hardware is so much more than a timeless and trustworthy brand that creates a, charismatic presence in any home. Baldwin is for those who "own it" with unparalleled confidence. It's about creating a signature look that seamlessly blends Baldwin hardware with the personality of its owner. No limits. No boundaries. Baldwin is about more than just having something special, it's about owning it and showing the world what true luxury is really worth. **BALDWIN. OWN IT.**
