care sheet

petco, Developed with and approved by a qualified veterinarian.

diet

A well-balanced hamster diet consists of:

- High-quality hamster lab blocks and limited amounts of grains, vegetables, fruits and Timothy hay.
- Clean, fresh, filtered. chlorine-free water. changed daily.
- Do **not** feed chocolate, caffeine or alcohol as these can cause serious medical conditions. Avoid sugar and high-fat treats.

feeding

Things to remember when feeding your hamster:

- Fresh food and water should alwavs be available.
- A limited amount of grain, vegetables, fruits or Timothy hay can be given daily but should not exceed 10% of their total diet
- Vegetables and fruits not eaten within 24 hours should be discarded.

housing

- Hamsters acclimate well to average household temperatures, not to exceed 80°F; be cautious of extreme temperature changes. The habitat should never be in direct sunlight or in a draftv area
- Habitat should be plastic. metal or glass with an escape-proof solid bottom; there should be plenty of room for the hamster to exercise and play. It is best to provide the largest habitat possible.
- 1 to 2" of bedding should be placed in the habitat; proper bedding includes high-quality paper bedding, crumbled paper bedding or hardwood shavings. Cedar-based products are not recommended.
- House adult hamsters separately. Different types of small animals should **not** be housed together.

Because all small animals are potential carriers of infectious diseases, such as Lymphocytic Choriomeningitis, Rat Bite Fever and Salmonella, always wash your hands before and after handling your small animal or habitat contents to help prevent the potential spread of disease.

Pregnant women, children under the age of 5, senior citizens and people with weakened immune systems should contact their physician before purchasing or caring for small animals and should consider not having a small animal as a pet.

Go to **cdc.gov/healthypets** and **petco.com/ caresheet** for more information about small animals and disease.

This Care Sheet can cover the care needs of other species. Go to **petco.com** for more information.
