

CLIFTON OCCASIONAL COLLECTION

Clifton's plantation-grown mango wood is coated with a white wash that lightens its color and accentuates its grain. This technique, along with hand-sanding, creates rich, organic surfaces, each different and complex. The wood's natural variations contrast with Clifton's strong geometric forms, including its solid iron legs coated in a nickel finish. The nickel finish is also present as an inlay on select pieces. Made unique by nature and enhanced by craftsmanship, Clifton Occasional is a truly artisanal collection and a perfect blend of rustic, organic materials and modern styling.

CARE INSTRUCTIONS: Dust regularly with a clean, dry cloth. Wipe up any spills immediately. Avoid using harsh abrasives or chemicals.

Mango wood contains knots and natural characteristics and imperfections that add to both the texture and organic look of the piece.

The handcrafted nature of Clifton's iron frame and solid wood may result in rough seams. The natural shrinking and expansion of the wood may also lead to slim gaps between materials.

Mango wood has natural variations in its hue and each piece will vary slightly.
