

DONNING INSTRUCTIONS:

- Velcro/opening should be on bottom.
- Buckle on right side.
- Adjust belt around waist.
- Window centered in front.
- “Jerk to Inflate” tab hanging downward.

NOTE:

If already inflated, you may deflate partially to don, then reinflate.

SECOND STAGE DONNING INSTRUCTIONS:

After inflating:

- Pull neck strap down from under chamber.
- Pull over chamber and over your head.
- Adjust length for desired head support.

SECOND STAGE INFLATION INSTRUCTIONS:

For maximum buoyancy, loosen belt and slide up to chest. Re-inflate through oral tube.
