Unleash your data's potential

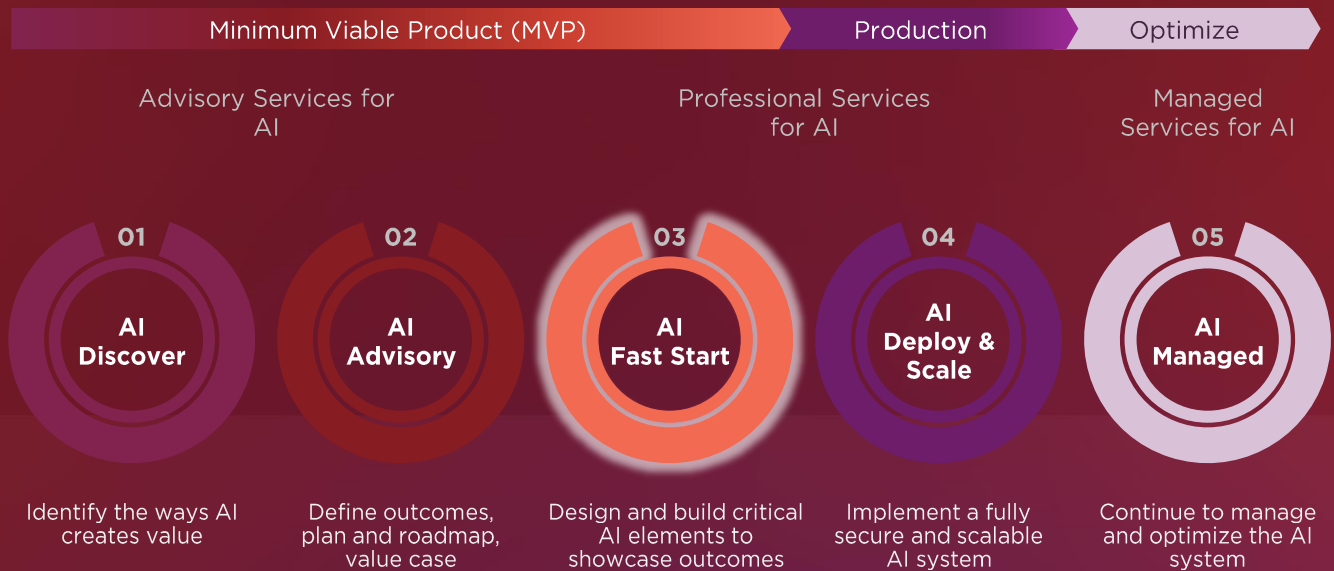

Get your AI off the ground fast with Lenovo's AI Fast Start

The race for AI is on - but where do you start? Lenovo's AI Fast Start for NVIDIA Enterprise gets your GPU-powered AI enterprise off the ground fast. Our certified experts prove out your most promising use cases, building live solutions on your data with NVIDIA's latest AI software. With hands-on guidance tailored to your business needs, we help you hit the ground running. Unlock transformative insights from your data in weeks, not months. Let Lenovo's deep AI expertise accelerate your success.

Proven Path to AI Success

With our expert guidance, you'll have an AI proof of concept built on your data and ready to showcase in just weeks. We focus on proving out your highest potential use cases, giving you a clear path to start realizing AI's benefits.

Expertise That Speeds Your Progress

Our certified specialists have the latest NVIDIA training and real-world AI implementation experience. We help you avoid pitfalls and fast-track your AI success, applying proven best practices tailored to your needs.

A Business Case for AI

AI Fast Start connects you with all the tools you need to defend the value of your AI proof of concept. Lenovo's experts develop detailed presentations and technical materials specific to your solution alongside your team, helping guide clients through the journey of presenting and justifying the business case to deploy and scale up their AI solution.

Key Features

- **Proven Path to AI Success:** Get an AI solution proof of concept built on your data in just weeks with our expert guidance. We focus on your highest potential use cases to showcase AI's benefits fast.
- **Expertise That Speeds Progress:** Our NVIDIA-certified specialists apply proven best practices tailored to your needs, helping you avoid pitfalls and fast-track AI success.
- **A Business Case for AI:** We attach technology to real business value. We don't just deliver a project, we work to equip your teams with all the tools and knowledge they need to justify the business case for their AI solutions.
