DIGITAL WORKPLACE TRANSFORMATION, BY THE NUMBERS

How Lenovo Digital Workplace Solutions connects your business priorities

A unified approach to workplace transformation can drive value in four key areas.

AI MODIFIED

AI

AI FROM PLAN TO PRODUCTIVITY. ONLY LENOVO.

50%

Up to 50% faster time to productivity with AI-driven strategy connecting the right device, service, and support to each employee.[1]

Bring AI adoption, governance, and technology together to drive measurable outcomes.

EMPLOYEE EXPERIENCE

VALUE FROM ONBOARD TO ON TRACK. ONLY LENOVO.

Cut cost per seat by half[2] using role-based devices powered by Intel® Core™ Ultra Series 3 processors with Intel vPro® and smarter lifecycle management for every employee.

Create a more personalized, productive experience that's simpler for IT to run.

AI MODIFIED

SECURITY

SECURITY FROM OS TO CLOUD. ONLY LENOVO.

60%

Cut containment times up to 60% with always-on security and protection built into every layer from hardware to the cloud.[3]

Trusted devices with built-in protection help IT reduce exposure and act quickly when threats emerge.

AI MODIFIED

SUSTAINABILITY

SUSTAINABILITY FROM RESOURCE EFFICIENCY TO BUSINESS VALUE. ONLY LENOVO.

76%

76% of PC parts are repaired for future use, and 84% of repairs happen on-site.[4]

Optimize IT resources to lower emissions and free capacity for AI-driven growth.
