

Lenovo Sustainability Solutions

AI-powered recommendations to help decarbonize your digital workplace.

Evaluate impact of different IT solutions and make more sustainable choices with LISSA.

What's holding back your sustainability strategy?

Is your sustainability strategy informed with data insights?

How are you measuring sustainability impact across your IT fleet?

Are you looking for ways to reduce potential emissions from your IT purchases?

Is your sustainability roadmap stuck and not progressing?

Are you looking for digital workplace solutions that increase productivity and reduce waste?

Whatever roadblocks stand in your way: Lenovo can help.

Bring data intelligence to your sustainability strategies.

Lenovo helps you deploy sustainability solutions within your digital workplace with confidence and ease.

Know your baseline

What should you prioritize? How to identify the right mix of IT solutions that drive measurable sustainability outcomes? Let's create that roadmap - from planning to end-of-life asset recycling.

Step 1

Planning & Assessment

Step 2

Faster Insights

IT decarbonization outcomes with LISSA

Get visibility into the potential emissions reduction opportunities across your IT lifecycle. With Lenovo's AI-powered Intelligent Sustainability Solutions Advisor - LISSA, we can help evaluate multiple service options that fit your sustainability priorities, increase efficiencies, and help reduce waste.

Sustainability Workshops

Build your roadmap

You need a well-structured strategy and roadmap to realize your IT sustainability vision with measurable outcomes. Lenovo can help create a short and long-term tailored blueprint with detailed next steps.

Step 3

Step 4

Easy Deployment

Start seeing tangible results

Lenovo helps you navigate IT sustainability complexities with ease. From deploying freight and packaging efficiencies to extending device lifecycles, managing IT footprint and recycling end-of-life devices, Lenovo helps optimize your digital workplace.

Maximize your sustainability outcomes
As your computing needs evolve, you will need to think of the emissions impact. Lenovo can help plan beyond your initial priorities and drive efficiencies across your IT fleet with flexible pay-as-you-go solutions such as TruScale DaaS.

Step 5

Manage & Scale

The vision is yours. Get there with Lenovo.

Wherever you are on your Sustainability journey, Lenovo can help you achieve tangible outcomes faster. Get in touch to discover more about accelerating your path to IT sustainability.
