

Lenovo Hybrid AI Advantage™ with NVIDIA

# AI inferencing at scale

Hybrid AI is everywhere your data lives—from device, to edge, to the data center and cloud.

84% of organizations leverage on premises or edge deployments for AI workloads.

## Defining the Hybrid AI era

Define and drive value across your entire organization with Personal, Enterprise, and Public AI.

AI is not just about building models; it is about running them efficiently.

## Overcoming roadblocks for expert-heavy models

Scaling inference is complex. Lenovo and NVIDIA bring inference closer to action, solving critical bottlenecks to dramatically lower your Total Cost of Ownership (TCO).

Architected for emerging AI patterns

## A full-stack ecosystem for AI inferencing

Lenovo and NVIDIA deliver a full-stack AI ecosystem with the Lenovo Hybrid AI Advantage.

Built on +20 years of co-innovation, spanning local AI devices to massive hybrid infrastructure. We provide the hardware, software, and the Lenovo Hybrid AI Factory Services for advisory, deployment and management throughout the lifecycle to optimize high-performance, industry-specific inferencing across any environment.
