

Your growth made simple

Smarter technology for all

Lenovo

Grow your business seamlessly with Lenovo TruScale Everything as a Service (XaaS).

Your vision as an IT leader has never been more crucial to business success. But inflexible infrastructure, strained budgets, and long IT procurement hold many back.

We believe there's a smarter way.

It is called as a Service: a flexible, scalable, and cost-efficient model that makes it easier to refresh aging technology, expand capabilities fast, and ensure your IT always matches business needs. None of which need big capital investments.

Free your business to grow

Lenovo TruScale Everything as a Service (XaaS) is your single source for flexible, global, and industry-leading IT services. Streamline IT procurement, simplify infrastructure and device management, and pay only for what you use – so your business can grow seamlessly.

84%

of CIOs are being evaluated on business-outcome metrics more than ever before.¹

Just 20%

of CIOs expect overall IT budgets to increase more than 10%.¹

92%

of CIOs would add new as-a-Service offerings over the next year.²
