

Unlock **smarter** infrastructure made simpler

Modernize, accelerate, and streamline your IT infrastructure. Lenovo and VMware ensure you're ready for anything.

Smarter
technology
for all

Lenovo

Demands for data-related insights are increasing and applications are extending well beyond a traditional data center. Already-constrained IT departments face added pressure to address these strategic needs while satisfying both operational and security responsibilities.

Lenovo and VMware solutions keep IT focused on high-priority initiatives by uniting infrastructure, software, and services to manage data more efficiently and accelerate innovation. The result is smarter infrastructure solutions that accelerate modernization and combine the security and control of on-premises infrastructure with the flexibility and automation of public cloud services.

Modernize IT infrastructure from edge to core to cloud

Lenovo and VMware help IT leaders achieve faster innovation and take advantage of new opportunities with modern IT infrastructure solutions:

- To the edge. **Lenovo ThinkEdge servers and VMware Edge Compute Stack (ECS)** enable organizations to modernize and secure edge-native apps and process data where it's generated — at the edge.
- To the core. **Lenovo ThinkAgile VX Integrated Systems with VMware vSAN Express Storage Architecture (ESA)** provide flexible scale with hyperconverged infrastructure while delivering storage performance for data-hungry applications.
- To the cloud. Using **Lenovo ThinkAgile VX Integrated Systems with VMware Cloud Foundation**, organizations can realize up to a 75% reduction in time to deployment, accelerating your seamless hybrid cloud environment.

Accelerate provisioning, deployment, and administration

Streamline your implementation with the latest infrastructure technology that's factory integrated, preconfigured, and ready to go. Lenovo ThinkAgile VX with VMware vSphere Foundation integrated systems are based on secure, powerful servers that have been rated #1 in reliability.¹

- **Lenovo ThinkAgile VX deployment wizard** and lifecycle management tools simplify the day-to-day operations associated with deploying and managing an infrastructure stack.
- **Lenovo XClarity and VMware Aria** provide single-pane-of-glass lifecycle management capabilities to reduce complexity and speed up response times.

Reduce workloads in an OpEx pay-as-you-go model

Lenovo TruScale Hybrid Cloud with VMware delivers future-proofed access to scalable infrastructure across multiple solutions with full flexibility, maintenance, and support.

- Use only what you need, with the flexibility to scale up or down.
- Access Lenovo and VMware expertise and offload operational management and monitoring workloads.
- Enjoy a dedicated customer success manager and services covering the full lifecycle of the solution.

Simplify IT and reclaim the time and resources you need to move your business forward with Lenovo and VMware.
