Lenovo Solutions & Services

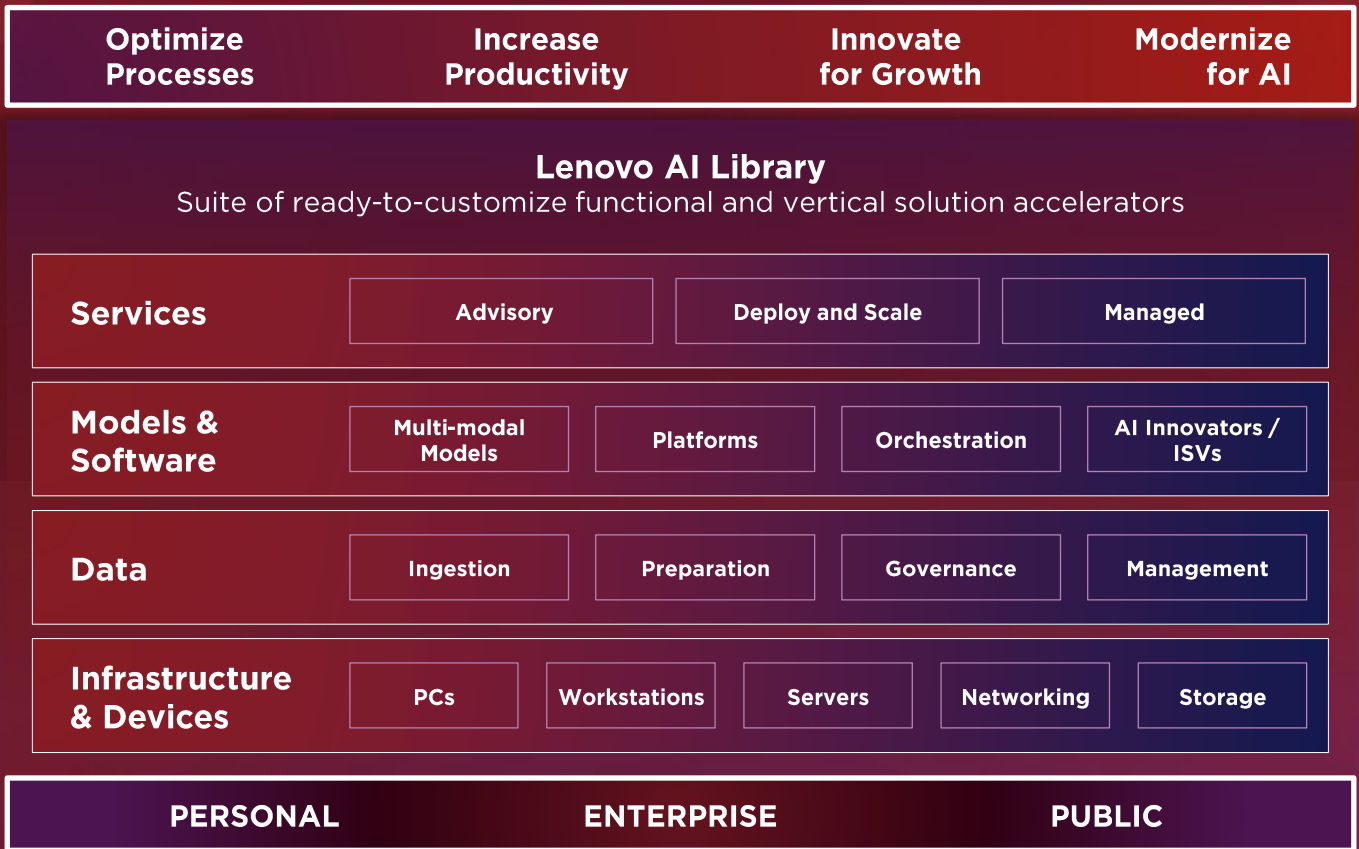

Smarter AI, **faster** outcomes

Lenovo Hybrid AI Advantage

We've found that Two thirds of organizations are currently struggling to prove ROI from AI investments despite AI being a top priority*. The Lenovo Hybrid AI Advantage brings a solution by enabling faster, smarter outcomes. The Lenovo Hybrid AI Advantage brings together our full-stack AI capabilities with a library of ready-to-customize AI use case solutions that help customers break through the barriers to ROI from AI. Enabled by our complete Hybrid AI portfolio of devices, infrastructure, solutions and services, the Lenovo AI Library significantly speeds the deployment of key AI use cases across domains including Legal, Marketing and Customer Service, enabling organizations to realize tangible outcomes from AI.

The Lenovo Hybrid AI Advantage

Our Hybrid AI factory and library of use case accelerators turn intelligence into outcomes faster

Smarter AI, Faster Outcomes

1

Lenovo Hybrid AI Advantage

Modernize your platforms for AI and define and rapidly prove the value of use cases, so you drive more value from your data, cloud and AI investments and achieve outcomes unique to your business needs.

2

AI Library

Bring Hybrid AI intelligence to life and achieve outcomes up to 50% faster with our library of proven AI accelerators, including domain-specific language models and functional and vertical agents.

3

AI Twins

Achieve outcomes faster by enabling your people to access relevant intelligence across personal, enterprise and public AI platforms with our Enterprise AI Twin architecture.
