Lenovo

# Smarter makes IT asset recovery effortless and circular.

## Managing your tech efficiently can be challenging...

Refresh pressures are higher

every 3-5 years

most organizations refresh or upgrade end-user PCs server, storage or network equipment<sup>1</sup>

~135,000

endpoint devices managed by the average enterprise<sup>2</sup>

But responsible disposal is tougher

89%

of organizations recycle less than 10% of their IT hardware<sup>3</sup>

over 50M metric tons

of e-waste is dumped per year—equivalent to 1,000 laptops per second<sup>4</sup>

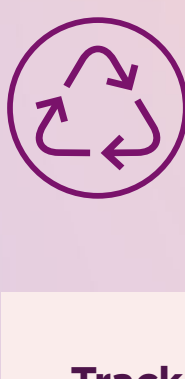

## ...but we've made it easy for you.

Take advantage of flexible recovery, enhanced security and circular outcomes for your end-of-life IT with Lenovo Asset Recovery Services (ARS).

## With Lenovo ARS you can:

Hover to learn more

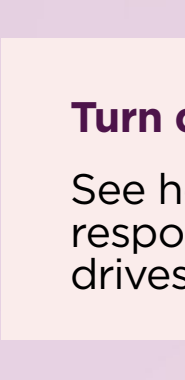

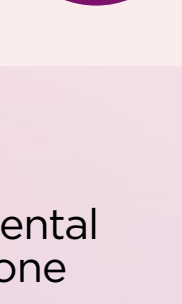

Schedule pickups with ease

Ready to recover? Submit a pickup request in just a few clicks and kickstart your IT asset recovery process—simple, fast, and hassle-free.

Track in real-time, stay in control

Get status updates on your asset recovery requests—no guesswork, just total visibility.

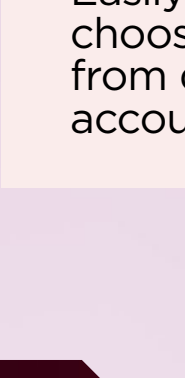

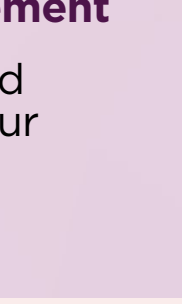

Instantly access compliance certificates

Download data destruction and environmental compliance certificates in seconds—all in one place, ready when you need them.

Turn data into actionable insights

See how your devices were remarketed or responsibly recycled—because every action drives impact.

Stay ahead with proactive asset management

Track devices nearing end-of-warranty and schedule pickups in advance—keeping your IT refresh seamless.

Seamless payments, maximum flexibility

Easily manage your ARS service credits and choose how to receive your recovered value from devices via direct deposit or credit on account option.

## Why choose Lenovo? We're the partner you can trust.

1M+

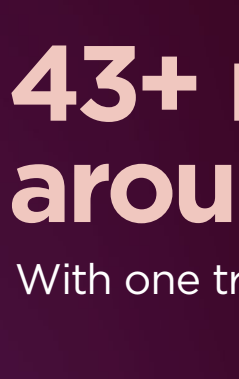

assets responsibly recycled<sup>6</sup>

15+ years'

experience in asset recycling

## Ranked in the top 1%

of EcoVadis-rated companies<sup>7</sup>

94,000MT

of products recycled or reused from our customers since 2020—equivalent to approximately 87 million ThinkPads<sup>8</sup>

## Accredited Product End-of-Life Management (PELM) suppliers

with certifications including R2, E-Stewards, ISO 9001, ISO 14001, ISO 45001 and ISO 2700122<sup>9</sup>

## 43+ markets around the globe

With one trusted IT solutions partner

## The vision is yours. Get there with Lenovo.
