

Keep business running with a mobile workforce

Secure corporate data while providing remote access to employees with Lenovo VDI solutions.

Lenovo has extensive experience in developing client virtualization solutions for diverse environments.

In fact, we are currently working to keep thousands of collaborators working remotely around the world.

Today's workforce wants to work safely from any device, in any location.

End-user computing solutions reduce costs and complexity with desktop and user management.

Improve overall security and compliance

Provide access to company data without natively storing on the client devices.

CENTRALIZED MANAGEMENT

Install new applications, manage updates and add/remove users from a single dashboard.

ENABLE A MOBILE WORKFORCE

Provide users access to their applications and data anywhere, any time, and from any device.

End-to-End Solutions

Lenovo offers a complete end-to-end client virtualization solution from the desktop to the data center.

- We are the #1 PC maker in the world, offering a wide range of PC, tablets, thin clients and smartphones for end user access. We have a client device for every use case.
- We offer pre-tested validated designs with industry-leading VDI applications from Citrix and VMware to provide faster time to value.
- Our hyperconverged server platforms based on Nutanix, VMware and Microsoft virtualization technologies help maximize use of compute and storage resources, lowering the total cost per virtual desktop.

for all

Lenovo

Lenovo Professional Services can help you get up and running quickly with a cost-effective VDI solution.

- Get the VDI design right the first time with a Lenovo-funded **VDI Assessment Workshop**
- Lower upfront costs by leveraging **Lenovo TruScale Services**, a subscription-based Infrastructure as a Service offering where you only pay for what you use.

Recommended VDI Client Devices

Lenovo M625q Thin Client

- Desktop based thin client
- Perfect for Skype for Business, Cisco Jabber and UC applications (720p)
- Low and affordable cost base

Lenovo 14W Thin Client

- Low cost mobile thin client
- Perfect for remote users
- Highly mobile
- Affordable price point

ThinkPad T490/T14

- Ultimate business laptop
- No compromises performance
- Full range of ports/slots
- Trusted ThinkPad Quality

ThinkPad X1 Carbon

- Premium performance and style
- Designed for highly mobile users
- <2.5lbs & 18hr battery life
- Trusted ThinkPad Quality
