# Entertaining Tips

Makes 6–7 frosty drinks, unless someone has a huge cup!

A tropical island–themed party in the middle of winter is a great way to beat the cold weather blues. Have guests don their favorite islandwear, put on some Jimmy, and fire up the BALI™ for a little taste of paradise right at home.

BALI™ is the perfect bartender at your next BBQ; load it up with ice and ingredients, and guests can serve themselves while you're busy "grilltending."

Host a BYOM party where each guest brings their favorite flavor of margarita mix. You provide the ice and the Frozen Concoction Maker®, and let the good times start flowing!

You can even use BALI™ to make virgin daiquiris and piña coladas at an island–themed kids' birthday party or sleepover. Kids love watching the Remix Channel™, mix up drinks and feel more grown–up serving themselves.

## Bali™ FROZEN CONCOCTION MAKER®

- Margaritaville® has taken drink-making fun to a whole new level with their first ever fully-automatic **"shave, blend & serve"** drink machine.
- Fluffy, frosty, thinly-shaved ice remains the key to concocting **restaurant-quality frozen drinks**; but BALI™ does more than just shave and blend – it keeps the party "flowing" by **automatically refreshing each drink** before serving for *unmatched smoothness and "mixation."*

The REMIX CHANNEL™ keeps drinks fresh throughout the entire party (and beyond!) by re-blending and refreshing drinks right before serving. Talk about "smart" concocting!

- Plus, with a push of the lever, BALI™ serves those delicious, freshly blended libations **directly into your glass**! (No pitcher messes.)

- Four intelligent **pre-programmed drink cycles** know exactly how much ice is needed, and how long to blend, for perfect Ritas, Daiquiris, Coladas and Smoothies every time.
- What's more, you can choose between a **half or full chamber drink level**. A half chamber will serve approximately 30 ounces (3 drinks) and a **full chamber will serve 60 ounces (6 drinks)**.

Let the good times *flow*!

Give your guests the power to pour their own thirst-quenching refills on demand. It's like entertaining on auto-pilot!

*Mix a batch and join the party with everyone else!*
