CANINE BLADE CHART

CREATIVITY + PERFORMANCE. UNLEASHED.™

At Oster® Professional, the only thing we love more than pets are the groomers who take care of them. That's why we've created this handy guidebook that matches up the perfect blade size with different animal breeds and hair types. It's a compact, portable quick reference guide to many of the most popular breeds that groomers work with.

Choosing the right type of blades for the job is just as important as choosing the right size. Our revolutionary Oster® Cryogen-X™ blades run cooler during grooming to give you every possible advantage. Freezing the blades to 300ºF below zero hardens the fine-grain carbon steel to a Rockwell hardness rating of 62+, meaning more grooming and less sharpening, plus an extended blade life.

The right tools and the right blades make all the difference, so let your creativity run wild with high-performance Cryogen-X™ blades from Oster® Professional.

AFGHAN HOUND

Matted coat	7F
On saddle only	7F

AIREDALE TERRIER
