

Step 1

Place the Thundershirt on your dog's back and wrap the **Short Flap** under the torso.

Step 2

Wrap the **Long Flap** under the torso and secure with Velcro onto the short flap. Make a comfortable, but snug, fit. You should be able to easily slide your fingers between the Thundershirt and your dog's torso.

Step 3

Wrap the **Top Flap** down onto the **Long Flap** and secure with Velcro. Adjust to improve the snug fit and keep Thundershirt securely in place.

Step 4

Wrap the **Chest Straps** around the front of the dog and secure with Velcro. You should be able to easily slide your fingers under the **Chest Straps** and should not feel restricting around your dog's neck.
