## COLLECTIONS

06

### MONTAY™

---

The Montay™ kitchen collection is sleek and statuesque with just a taste of raw-edged industrial design. This ergonomic faucet incorporates a pull-down spray head at just the right height for no-reach cleanup. A prep pull-down, coordinating soap dispenser and pot filler complete the collection.

10

### NEERA™

---

If there's one faucet that's prepared to bring out your inner chef at the drop of an impromptu dinner party, Neera is it. Soft, clean, transitional lines look beautiful in repose while the culinary option hints contemporary flair. This powerhouse is packed with features for chefs and foodies alike.

08

### NORDEN™

---

Though technically considered a transitional design that plays well with multiple interior styles, Norden also embodies many of the elements that make up the modern sensibilities of today. Angular edging alongside soft swoops and curves become 3-D art that's as ergonomic as it is captivating.

12

### STELLEN™

---

The Stellen™ kitchen collection combines sleek, simple lines and contemporary curves to create a modern faucet designed to meet today's demand for popular urban and Euro designs.
