

Online Distribution Policy – United States

Amendment: June 30, 2018

As the landscape of consumer shopping changes we want our customers to be assured they have the best tools available to showcase the Pfister brand whether it is in a physical or virtual store. As such, Pfister has adopted the following policy for its customers as it relates to its Pfister branded finished goods product effective March 1, 2018. Customers are defined as wholesalers, distributors, showrooms, kitchen and bath dealers, retailers, and e-Commerce sellers. This policy establishes both **Pfister Authorized Online Seller (Authorized)** and **Pfister Preferred online seller (Preferred)** and the requirements for both. This replaces and supersedes any prior online sales policy.

Pfister believes that the best strategy to provide strong, long-lasting equity with Pfister branded products is to ensure that the products are represented consistently across all locations where they are sold. Certain existing practices regarding branding, sales, advertising, and customer service are inconsistent with the way that Pfister would like to represent its image and ensure the best experience for its customers. As such, the organization is updating its current practices to enact the following changes:

Effective immediately, Pfister customers will not be permitted to:

- Sell Pfister products to customers who resell on the internet, unless the customer is either recognized **Authorized** or **Preferred** customer

Or

- Resell Pfister products on the internet on their own websites or through other websites including marketplace type sites like Amazon marketplace, eBay, Walmart, unless the distributor is **Authorized** or **Preferred** itself

To become an **Authorized** or **Preferred** online seller, each of Pfister's customers must complete the attached Pfister Online Policy Application. Pfister will review applications on a quarterly basis beginning March 2018 and will approve applications for a July 1, 2018 implementation. A list of authorized and preferred sellers will be maintained on Pfisterfaucets.com website, but all customers are responsible to ensure a partner organization is a preferred or authorized seller in good standing at the time of the transaction.

Authorized and Preferred Requirements and Benefits:

To ensure a strong Pfister brand image, the Pfister brand has laid out the requirements for both **Authorized** and **Preferred** categories. After July 1, 2018, all websites who are not **Authorized** or **Preferred** online sellers using Pfister images, logos and materials will be required to discontinue using Pfister produced proprietary branding materials until they are authorized to do so. Continued use of Pfister assets on unauthorized websites will result in a loss of access to images and product for a period of one year.

Pfister will review both **Authorized** and **Preferred** online sellers to ensure that they are consistent in the way they present the Pfister brand and retain the right to revoke status from any seller that is not in compliance with the requirements set forth below:
