PFISTER FAUCETS

VERVE

The designer's dream collection is finally here! Introducing Verve™, our biggest and most complete collection Pfister® Showroom has ever launched! We understand no two designers' styles are exactly the same, so faucets shouldn't be one-size-fits-all either. The Verve™ collection allows you to put your own custom touch to fit the look and need for any bathroom project. First choose your spout, then your handle design, and finally the finish combination that goes with your space. Mix and match finishes to build fixtures that are as unique as you are. The possibilities are (almost) endless.

What will you create?

Pfister Showroom Statement
