We are Pfister.

For more than a century, families have been welcoming Pfister into their homes. We have become their partners through and through. We are willing to serve. Happy to help.

Never will you be hung out to dry. Never will your budget keep you from finding the style you'll love. Never will we stop searching for ways to improve your everyday experience.

We're faucet people. Real, humble, and hard-working. We know what you want out of a faucet, because we know what we'd want out of a faucet.

We put our hearts into everything we do, creating thoughtfully designed faucets and fixtures that fit perfectly into your life – because we believe everyone deserves to fill their home with style and quality no matter what their budget.

React™

Response Activated Technology

Pfister's REACT faucets put you in charge when things get hectic in the kitchen. Simply guide your hand or an object within 3" of the front of the sensor to turn the water on or off. Minimize water spots, fingerprints, and the spread of germs with this reliable, touch-free faucet.

MagnePfit™

Pfister's MagnePfit magnetic docking features powerful magnets that keep your spray head firmly secured. The magnets work in conjunction with the heavy weight located on the hose to provide quick retraction while the magnets work to keep your spray head secured and looking seamless.

Auto-Align™

Manually aligning your spray head after each use can be a real pain. Auto-Align simplifies that process for you by removing the need for manual alignment and positioning. Threaded grooves are subtly located at the base of the spray head and work with corresponding grooves inside the spout to re-orient the spray head for perfect positioning.

Ultra Seal™

Pfister's UltraSeal cartridge is a premium upgrade to your showroom preferred faucet offering you lifelong protection against leaks. Pfister ensures the strongest connection point to the handle with larger ceramic discs and an all-brass ¼-turn cartridge technology. UltraSeal cartridges can be retrofitted into most existing widespread faucets.

Accudock™

AccuDock is Pfister's advanced sprayhead docking technology which ensures a secure, tight connection of the spray head to the faucet spout every time. The AccuDock technology guarantees the spray head will stay securely in place after every use.

PUSH & SEAL™

DRAIN INNOVATION

Push & Seal is an innovative drain assembly that is easy to install and even easier to use. No tools are required, and it installs in half the time of a standard pop-up drain. Press to seal and again to open. It really is that easy.

Icon Legend

Core Offering

All kitchen and lavatory products with a star beside the model number are part of Pfister's Core Offerings list in Canada.

Meets EPA WaterSenseSM Standards

All items with the WaterSenseSM logo to the left of the model numbers meet or exceed the certification criteria of the EPA's WaterSense Program.

NSF Lead-Free Certified

All kitchen and lavatory model numbers starting with the prefix "GT" or "LG" meet NSF 61/9 Annex G Lead Requirements.

ADA Compliant

Models displaying the International Symbol of Accessibility are accessible by physically disadvantaged persons and meet all ADA/ANSI A117.1 requirements.

CalGreen Compliant

All items with this logo meet or exceed the flow rate criteria of the California Green Building Code.

CEC Compliant

All model numbers beginning with LG, G and GT's meet the requirements of the California Energy Commission.

UltraSealTM

All items with this logo include brass 1/4-turn cartridge and ceramic disc technology for lifelong leak-free operation. Retrofits into most existing widespread valve bodies.

SecurePfitTM

All items with this logo include a unique fixed -hub handle which threads directly to the valve cartridge for significant structural rigidity.

WaterSenseSM

We went green more than a decade ago. Our initiative with products that were certified by the Environmental Protection Agency's WaterSense program started in 2007, long before others heeded the call. Faucets engineered to reduce water consumption by 30% or more — without sacrificing performance — were crucial to us as good citizens. We'll continue to create innovations that support conscientious households, and the future of our planet.

CEC Compliant

Less usage never felt so good. With Pfister faucets, being water-wise requires no sacrifice. In fact, meeting the California Energy Commission's standards is likely unnoticeable on a daily basis. What you do know is that your shower head meets the strict WaterSense performance guidelines and that you're using significantly less water without any extra effort. Hooray for innovation that's effective and enjoyable!

CalGreen Compliant

We got this. Many Pfister products already meet or exceed the California Green Building Code. Which means that we've committed to reduce the overall use of potable water within any given building by at least 20%. This stringent measurement meets Cal Green criteria, but we're always improving to exceed current standards. Future generations can count on us.

Water Conservation

Pfister makes it easy to conserve water. Eco-Pfriendly™ aerators and inserts are available for Kitchen, Lavatory and Showerhead products. Locate your product on the following charts to choose the correct option for your water conserving needs.

This is mod that makes your interior design sing. Right angles and soft circles immediately bring to mind the fixtures of Bauhaus. With all the best aspects of function integrated into form, playful sophistication comes together in unified simplicity. For stark purists, it's your perfect centerpiece. For the avant garde or adventurous, Brislin is your building block for clean, layered looks.

Deckard

The Deckard Collection embodies soft-modern design by incorporating curves into the familiar sleek, hard-edge motif of modern aesthetics. The clean, horizontal lines in this design create a precise look as the contrasting subtle curves offer balance. The small footprint of this faucet and the thin profile of the spout and handle make this a clean design that is optimal for any modern space.

Rhen

FOLDS THAT FLOW WITH THE NATURAL
ELEGANCE OF WATER. RHEN MAKES AN ENTRANCE.

In a world of haste, there is a haven to be found in the graceful folds of Rhen. Hourglass silhouettes echo hand-tailored eveningwear, enchanting from every angle, yet utterly mesmerizing in motion. Inspired by the designer's heirloom wedding gown, the elements of this collection are perfectly imperfect organic pieces that imbue the transitional faucet with a twist of nostalgia.

Tenet

TENET

MODERN LIFESTYLE, DISTILLED INTO A SOPHISTICATED COLLECTION.

If you've taken a look around and decided that excess is just that—clarity of purpose comes shining through. The things you choose to adorn your space become carefully cultivated, and not just arbitrary accumulation. This all-brass modern collection is for the true minimalist who values perfect proportion and extremely precise functionality. Faucet levers and cross handles sit tightly flush, a feat of inner engineering that allows for crisp lines and a tidy footprint. The shower-integrated rail has been thoughtfully designed for ease of installation, complementing a 'just right' 8" rain showerhead. Exactly what you need with nothing that you don't, this collection is premium, through and through. The epitome of simplicity, TENET proves what you already know: every detail counts.

Valves

Sure, they go behind the wall. But that doesn't mean your tub and shower valves aren't critical. Selecting the right valves comes down to your plumbing setup. From single-handle and multi-handle tub and shower valves, to diverter valves for hand held showers and body sprays, and a choice between pressure-balanced and thermostatic, you'll find a range of Pfister valves to meet your needs.
