

Designed & Manufactured by

D&D Technologies

**Premium Grade Polymer Gate Hardware** 

### Introduction

Stanley-National Hardware has been a leading manufacturer of gate hardware for more than a century. Over the course of the last 160-plus years, Stanley-National is a name that has become synonymous with quality, innovation, and customer service.

Now, as we move into a brand new century, Stanley-National Hardware is combining its legacy of manufacturing gate hardware products with its forward-looking innovation to introduce a brand new segment of the category — highest quality polymer gate hardware.

Partnering with the industry leader, D&D Technologies of Australia, Stanley-National will roll out a line of top quality polymer gate products, including latches, hinges and locks. Polymer gate hardware products are virtually indestructible and designed for today's upscale fence, gate and security applications.

Polymer gate hardware products offer consumers the quality and performance of state-of-the-art innovation. With a lifetime warranty, polymer gate products are rust-proof and corrosion-proof. You can be assured that Stanley-National polymer gate products will not:

Bind / Sag / Stain / Fade / Rust / Chip / Bend out of Shape

All D&D products come with stainless steel fasteners and are quick and easy to install. All products fit left-hand, right-hand, in-swing and out-swing gates.

When retail customers are deciding whether to place the Stanley-National line of polymer gate hardware products in their stores, they can be assured that they are buying the real thing. These are not knock-off items or cheap imitators; these are the genuine products manufactured only by D&D Technologies. Our customers will have an exclusive line of top quality products to promote.

Polymer gate hardware is the next step in Stanley-National's evolutionary process of bringing innovative products to market. Once again, Stanley-National Hardware rises above the crowd to lead the way in new product introductions.

### **D**<sup>®</sup> MAGNA**Latch**<sup>®</sup>

### MagnaLatch Top Pull — The World's #1 Child Safety Gate Latch

MagnaLatch™ safety gate latches are a revolutionary breakthrough in latching for any gate where child safety is a concern.

Powered by strong "permanent magnets" which never lose power, these quality latches incur no mechanical interference to closure and so offer unprecedented reliability, safety and child resistance.

The Top Pull model is ideal for pool & child safety gates and can be used to ensure the latch release knob is mounted at code-required height (typically 54") on shorter gates.

#### **FEATURES AND BENEFITS**

- Patented magnetic self-latching mechanism ensures no mechanical jamming during closure
- Ultra-strong polymers & stainless steel components will never rust, bind or stain!
- ullet Horizontally & vertically adjustable during or after installation
- Meets most international pool safety codes
- Key lockable for added peace of mind
- Won't disengage from shaking & pulling
- Tested to over 400,000 cycles for unprecedented reliability and safety
- Limited Lifetime Warranty

### SPECIFICATIONS – MagnaLatch Top Pull

**Materials** Aluminum, engineering-grade polymers and stainless steel

**Applications** - Pool fences and safety gates

- Any gate that prevents toddlers from accessing hazardous areas and

keeps pets from escaping

Fence Material Metal, wood, vinyl

**Size** 20-1/2"H x 3-3/8"W (520mm x 86mm)

**Adjustability** Vertical: 1-1/2" (38mm)

Horizontal: 1/2" to 1-7/16" (13-37mm) Spacer: Up to 2" (51mm) horizontal adjustment using included spacer

Ideal Gate Gap 3/4" (19mm)

**Cycle Rating** Tested to over 400,000 cycles

**Warranty** Limited Lifetime Warranty

Package Contents - (1) Latch & Striker bodies

(2) Mounting brackets(3) Post cap spacers

- (11) # 10 screws

- (2) Keys

- (1) 2" (51mm) Gap Spacer

When used in a swimming pool or spa application, the Top Pull model should be used on gates that are 4 feet (1220mm) or higher. Consult your local authorities for pool and spa fencing codes.

Latch release knob sits out of reach of toddlers

> Key-lockable for added peace of mind-Key Blank reference: LF18 or LF31R

Side fixing legs for accurate alignment and added fixing strength. Reduces installation time.

Permanent magnets never lose strength and are sealed from the elements to prevent corrosion

MagnaLatch Top Pulls and Vertical Pulls are keyed alike.

> Vertical & horizontal adjustment makes installation easy and overcomes future gate misalignment from ground settling

### Latches

### MagnaLatch Vertical Pull

MagnaLatch™ safety gate latches are a revolutionary breakthrough in latching for any gate where child safety is a concern.

Powered by strong "permanent magnets" which never lose power, these quality latches incur no mechanical interference to closure and so offer unprecedented reliability, safety and child resistance.

The Vertical Pull model is designed for safety gates of 5 feet or higher and offers a styling choice to the consumer.

It's also great for protecting pets as it won't disengage from shaking.

The MagnaLatch allows for easy horizontal and vertical adjustment with just a turn of a screwdriver. It can be adjusted at any time during or after installation. This feature compensates for ground settling and gate movement that may occur over time. The adjustability of MagnaLatch ensures the gate will continue to operate properly long after installation.

### **FEATURES AND BENEFITS**

Prevents pets

from escaping

### Side Pull General Purpose Magnetic Gate Latch

The MagnaLatch™ Side Pull Model is the ideal choice for general-purpose walk gates.

Powered by super-strong "permanent magnets" that never lose their power, these quality latches have no mechanical interference to closure, offering unprecedented reliability.

Made from durable polymers and stainless steel components, they will never rust, bind or stain expensive fence materials.

Permanent magnets never lose strength and are sealed from the elements to prevent corrosion

### SPECIFICATIONS – General Purpose Magnetic Gate Latch

Materials	Engineering-grade polymer and stainless steel
Applications	General-purpose gates
Fence Material	Metal, wood, vinyl
Size	2-3/4"H x 2-1/2"W (71mm x 64mm)
Adjustability	Horizontal: 3/8" to 3/4" (10mm to 19mm)
Ideal Gate Gap	3/8" (10mm)
Cycle Rating	Tested to over 400,000 cycles
Warranty	Limited Lifetime Warranty
Package Contents	- (1) Latch Body & Keeper - (4) Dress Caps - (4) # 10 screws

When used on picket style gates that lead to a swimming pool or spa, a compliant shield must be used to prevent latch access by toddlers. Consult your local authorities for pool and spa fencing codes.

Fits in-swing, out-swing, left-handed and righthanded gates.

The MagnaLatch Side Pull model allows for easy horizontal and vertical adjustment with just a turn of a screwdriver. It can be adjusted up to 3/8" (10mm) at any time during or after installation. This feature compensates for ground settling and gate movement that may occur over time. The adjustability of MagnaLatch ensures the gate will continue to operate properly long after installation.

Dress Caps cover screw holes and add a stylish appearance

### **Dual Access Lockable Gate Latch**

LokkLatch™ DELUXE is a heavy duty gravity latch designed for privacy and security gates. Its super-strong polymers and marine grade stainless steel components make it an ideal gate latch for security conscious consumers and light commercial applications.

Its dual, 6-pin lock cylinders can be re-keyed to match other locks at the home, apartment or commercial property. They can also be master-keyed for maximum convenience.

Lokklatch DFLUXF can be locked and unlocked from both sides of the gate. No more running around to the other side of the gate to unlock the padlock or unsightly pull strings - talk about convenient!

Side fixing legs not only make the LokkLatch DELUXE easy to install, they add exceptional strength and improve tamper resistance.

#### **FEATURES AND BENEFITS**

- Locks and unlocks from both sides of gate
- Ultra-strong engineering polymers and stainless steel components
- Will never rust, bind or stain expensive fence material
- Horizontally & vertically adjustable during or after installation
- Dual, rekeyable 6-pin locks for added security
- Drill only one hole through post
- Side fixing legs deliver an easy installation and superior strength
- Fits fence posts up to 6" deep
- Tested to 200,000 cycles
- Limited Lifetime Warranty

### RUSCI ADJUSTABLE, SELF-CLOSING GATE HINGES

### **Self-Closing Gate Hinge**

Tru-Close<sup>™</sup> hinges are self-closing and tension adjustable. Made from engineering polymers and stainless steel components, they will never rust, bind or stain expensive fence materials. D&D's unique blend of polymers is self-lubricating and UV resistant.

TruClose regular range hinges are suitable for self-closing gates up to 55 lb (25kg), with a maximum temporary gate load of up to 450 lb (205 kg). The polymers used have a memory, so if a temporary load is applied the hinge will return to its original shape.

All feature the patented TruClose easy tension adjustment mechanism, ensuring your gate closes first time, every time.
