DEGRADE SERIES

The ombré trend, when one color gradates into another lighter shade, has made its way onto tiles and into homes. The Degrade Milx series consists of 8" x 24" ceramic tiles that gradate and vary in tone from light to dark, creating a very unique look. The grooved and textured surfaces add even more originality to walls as they reflect light and enhance the tile's color. Pair Degrade with Maiolica tiles to perfectly bring out their color in a matte solid.
