3. PRODUCT DESCRIPTION

Superior Penetrating Sealer is a below-surface sealer designed for interior and exterior use. It is an excellent sealer for grout when a non-gloss natural look is desired. Its primary function is sealing grout without changing its natural appearance.

DESCRIPTION

A. Uses

Designed for use on masonry, and grout.

B. Features

- Reduces water absorption into substrates
- Colorless to preserve the natural appearance of substrates
- Penetrating and breathable
- Low VOC
- Non-flammable
- Interior or Exterior

C. Packaging

16 oz. container
32 oz. container

D. Shelf Life

36 months. Store off the ground and protect from the weather

E. Limitations

Prevent from freezing. Make sure any acid washes have been neutralized prior to applying of this product. Extra caution should be given when working near glass, glazed ceramic tile and other non porous surfaces. If sealer gets on these materials, DO NOT ALLOW TO DRY. Wipe off and buff the surface immediately with dry paper towels.

4. APPLICATION

Read entire label before using. Surface should be clean and dry. All soil, waxes and coatings must be removed prior to application. Always test a small area, allowing a 24-hour cure time to determine the suitability and desired results for your application. Use gloves and protect eyes when working with this product.

A. Application of Product

1. Apply Superior Penetrating Sealer with a sponge, sealer sponge, mop or brush.
2. Apply a thin, even application taking care not to let puddles form on the surface.

Note: This is very important as a white film will coat the surface anywhere the sealer is not absorbed and this film is extremely difficult to remove once dried.

3. Use paper towels to wipe up excess sealer while applying.
4. One coat is usually sufficient for most surfaces.
5. Test sealed surface when dry with a few drops of water. If the moist droplets are absorbed, apply a second application.

B. Handling and Storage

Close container after each use. Store in original container only. Store and use in temperatures between 40° F and 100° F (4° C and 38° C). Dispose of residue or any unused leftover product in accordance with applicable federal, state and local regulations.

5. AVAILABILITY

Available exclusively at The Tile Shop. Visit www.tileshop.com to find your nearest location or call 1-888-398-6595 for more information.

6. MAINTENANCE

Superior Grout & Tile Neutral Cleaner is the recommended cleaning solution designed for general maintenance after Superior Penetrating Sealer has been applied to surface. Superior Grout & Tile Neutral Cleaner is a neutral pH cleaner and will not remove or strip the protective sealer
