## 3. PRODUCT DESCRIPTION

Superior Pro-Primer is a premium blend of acrylic co-polymers designed to give maximum adhesion when used with the Superior Pro-Level system. Superior Pro-Primer is designed to improve the bond of underlayments.

### DESCRIPTION

#### A. Uses

Designed for use with Superior thinsets and Superior Pro Level.

#### B. Features

- Improved bond
- Protects underlayment from absorbing excess moisture from substrates
- Interior or Exterior applications

#### C. Packaging

1 gal. container

#### D. Shelf Life

6 months. Store off the ground and protect from the weather

#### E. Limitations

Shake well before using. Clean all tools with soap and water. Keep from freezing. Portland cement is high alkaline – avoid contact with eyes and prolonged contact with skin. Flush contact areas thoroughly.

## 4. APPLICATION

Read entire label before using. All surfaces must be structurally sound, clean, dry and free of surface contaminants such as dirt, grease, oil, curing compounds, sealers, adhesives and/or any contaminants that can impede bonding of Pro-Primer to substrate.

### A. Application of Product

1. Apply Superior Pro-Primer with a stiff broom, roll or brush evenly over substrate. Do not allow puddling.
2. Allow to dry to a clear film (approximately 1-3 hours depending on conditions).
3. 2 coats are recommended, however, when using Superior Pro-Primer over highly porous substrates like concrete, a second coat is necessary.
4. Approximate coverage is 400 sq ft (37m<sup>2</sup>) per coat depending on porosity.

### B. Cleaning

Clean all tools with soap and water while still wet.

### C. Handling and Storage

Close container after each use. Store in original container only. Keep from freezing.

---

## 5. AVAILABILITY

Available exclusively at The Tile Shop. Visit [www.tileshop.com](http://www.tileshop.com) to find your nearest location or call 1-888-398-6595 for more information.

## 6. MAINTENANCE

Superior installation products require no long-term maintenance, but installation performance and durability may depend on proper maintenance of other products used during installation.
