

Method A

For removal of Superior® Enhance 'N' Seal residue within 48 hours of application

Product Recommendation: Superior® Stone Deep Clean

Equipment: Black Nylon scrub brush, mop and bucket with wringer or wet/dry vacuum

Optional: For large installations a low RPM (150-350 RPM) floor machine may be used fitted with a soft to medium bristle brush or hogs hair pad

Coverage: Approximately 150 - 300 sq. ft. (14 m² – 28 m²) per gallon (3.785 L) of diluted product

Procedure:

1. **Always test a small area first.**
2. Mix one part **Stone Deep Clean** to two parts water.
3. Apply solution onto surface and allow to dwell for 5 to 10 minutes.
4. Agitate by hand with scrub brush or with floor machine. Keep surface wet throughout process.
5. Remove solution with mop or wet/dry vacuum.
6. Rinse several times with clean water and allow to dry.

Method B

For removal of Aqua Mix Enhance 'N' Seal or Seal residue after 48 hours of application

Product Recommendation: Superior® Pro-Strip (NOTE C)

Equipment: Black Nylon scrub pad or natural-bristle scrub brush, mop and bucket with wringer or wet/dry vacuum

Optional: For large installations a low RPM (150-350 RPM) floor machine may be used fitted with a soft to medium bristle brush or hogs hair pad

Coverage: Approximately 75 - 200 sq. ft. (7 m² – 19 m²) per gallon (3.785 L)

Procedure:

1. **Always test a small area first.**
2. Apply a liberal amount of **Pro Strip** to a small, manageable area of up to 25 sq. ft. (2 m²)
3. Allow to dwell for up to 2 hours for residue to soften.
4. Agitate by hand with scrub brush or with floor machine.
5. If necessary, apply small amounts of additional remover or apply more water.
6. Remove solution with mop or wet/dry vacuum.
7. Rinse several times with clean water and allow to dry.

NOTE C: Do not use Pro Strip on synthetic agglomerate or other resinous surfaces.

*This recommendation is intended as a guideline for the removal of **Enhance 'N' Seal** or **Sealer** residue. The actual cleaning requirements may vary depending on type of tile, method of application, texture of stone and amount of residue.*
