

Purpose: To remove mineral deposits/rust on tile, grout & **acid-resistant stone surfaces**

Products: **Heavy-Duty Grout & Tile Cleaner** or **Grout & Tile Neutral Cleaner**

Equipment: Black nylon scrub brush or scrub pad and Rubber Gloves

Coverage: Varies depending on use and amount of buildup

Procedure:

1. **Always test a small area first to ensure satisfactory results.**
2. Apply pre-diluted solution to surface.
3. Agitate with a Black nylon scrub brush or scrub pad.
4. For stubborn areas, allow to dwell 5 to 10 minutes before agitating.
5. Rinse thoroughly with clean water.
6. Maintain weekly with **Grout and Tile Neutral Cleaner**.

Note A: Do not use on polished marble, limestone or any acid-sensitive tile/stone.

Note B: For areas with stubborn or heavy buildup, **Heavy-Duty Tile & Grout Cleaner** is recommended in place of **Grout & Tile Neutral Cleaner**, used per product directions.

Note C: For removal of soap scum and mildew stains on acid-sensitive surfaces, **Stone Deep Clean** is recommended.
