

TIMBER RIDGE

Go Ahead. Make a Splash.

Introducing our new Timber Ridge series floor where Water Proof is literally at its core. Whether you choose to install this in your basement, bathroom, or kitchen, Timber Ridge can handle anything your home throws at it.

Walking On Air.

Timber Ridge now provides an overall thickness of 6mm, giving this floor an extra dimension of stability, durability and comfort.

Beauty You Can Feel.

From the surface, Timber Ridge was created to mimic a natural hardwood floor. Our Innovative True Touch Texture technology gives you the feeling of a natural floor while adding a strong protective layer for wear resistance.
