WEISER

UNITE

Weiser UNITE™

A comprehensive yet simple end-to-end multifamily access control solution.

Experience convenience, connectivity and seamless access control with the Weiser UNITE™ EAC Platform.

Electronic locks, cloud-based web and mobile software, and smart credentials work together to deliver a simple yet comprehensive solution for managing your multifamily property.

Weiser UNITE™ electronic locks are the Smart multifamily property upgrade for your mechanical locks.

Weiser UNITE™ Electronic Locks provide multifamily property managers and tenants with a convenient, stylish and efficient way to manage resident door access.

They come in a standard lock and interconnect variant and can be controlled by mobile, desktop or physical credentials (fob or card).
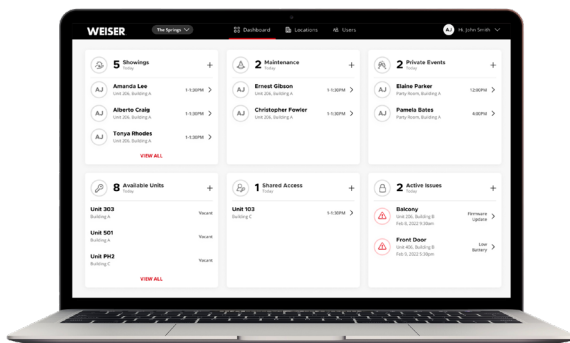

Weiser's trusted electronic locks and intuitive software platform offer a cohesive, simple and seamless access control experience.

Smart and Convenient Access Control

Unlock convenience, security and cost savings with Weiser UNITE™ Smart Credentials.

They are a core component of keyless entry systems, boasting an integrated chip that serves as a security token.

The physical smart cards and fobs are programmable and have built-in authentication that controls access to door-locking devices.

By utilizing radio frequency identification (RFID) technology, they enable users to easily and electronically open and unlock doors to indivdual apartment units as well as common areas.
