

AMP10

Alternative Matte Photopaper Aqueous Inkjet Media for use with dye and pigment ink on thermal, piezo, and latex inkjet printers.

PRODUCT DESCRIPTION

A 10 mil (230 gsm) alternative matte photo paper with a bright white coating. Sturdy 10 mil basis weight allows for more ink load than typical presentation coated papers. AMP10 bridges the gap between presentation and photo papers. Universally compatible with traditional aqueous and latex printers.

Printer/Ink Compatibility

AMP10 recommended for use with dye and pigment inks in most of today's inkjet printers.

Finishing Recommendations

AMP10 can be overlaminated with both thermal (max. 185°F.) and pressure sensitive laminates. Make sure that prints are completely dry prior to laminating.

Cold pressure-sensitive adhesives are recommended for mounting.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
