Color Profiles

ICC color profiles can help improve image quality and optimize ink limits for improved drytime, wide color gamut, and accurate color matching.

Finishing Recommendations

BC2S24 can be overlaminated with both thermal (max. 185 °F) and pressure-sensitive laminates for additional scratch resistance and moisture protection when needed. Make sure that prints are completely dry prior to laminating.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
