

## CAN17

17 mil Polyester Blend Canvas Aqueous Inkjet Media for use with dye and pigment ink on thermal and piezo inkjet printers.

## PRODUCT DESCRIPTION

A 17 mil (320 gsm), matte, water-resistant canvas composed of 35 percent cotton and 65 percent polyester blend. Carrying a fine weave of 1 over 1, this allows for flexibility in handling to make canvas wraps or graphic pieces that require bending the fabric. Can be stretched without cracking—based on toner lay down during printing on the Colorwave 700/3700/3800 and T65 printers.

## SPECIFICATIONS

### Physical Properties\*

- **Basis weight:** 320 gsm
- **Caliper:** 17 mil
- **Whiteness:** > 120 CIE
- **Opacity:** > 98%
- **Weave:** Oxford 1 over 1

\*Target Values

### Features

- Excellent overall print quality
- Indoor use
- Water resistant
- Fine weave

### Recommended Storage Conditions and Shelf Life

- Store in clean, dry area away from direct sunlight.
- **Temperature:** 68-77 °F (20-25 °C).
- **Relative Humidity:** 30-70%.
- Repack opened rolls when not in use.
- Allow material to stabilize to room conditions 24 hours before use.

### Environmental, Health, and Safety

- No Material Safety Data Sheet required.
- Waste not suited for recycling.

### Main Applications

- Graphics Box framed
- Indoor murals
- Indoor Hanging Signs

### Printer/Ink Compatibility

CAN17 is recommended for use in ColorWave 700/3700/3800 and T65 printers. You can create a custom profile using Web Express tools. Media comes on a 3-inch core. It's also compatible with traditional thermal and piezo inkjet printers.

### Finishing Recommendations

The CAN17 performs well in finishing operations. Can be stretched without cracking—based on toner lay down during printing on the ColorWave 700/3700/3800 and T65 printer.

### Color Profiles

ICC color profiles can help to improve image quality and optimize ink limits for improved dry-time, wide color gamut, and accurate color matching. The Colorwave 700/3700/3800 and T65 printers can create a custom media profile through Web Express. You can choose CAN17 from Web Tools to import into controller.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
