## ID8L

### Luster Photopaper Aqueous Inkjet Media

## PRODUCT DESCRIPTION

An 8.5 mil (210 gsm) luster ("E" type) photo paper. Instant Dry ID8L is a premium resin-coated photobase meeting the demands for high quality photorealistic reproduction. The ultra white base with microporous coating means your prints will be instantly dry and water resistant while the thinner base allows you to save money and still provide photographic output. Universal compatibility is optimized for today's wide gamut printers. Instant Dry ID8L helps optimize natural skin tones and more neutral Lab values.

### Environmental, Health, and Safety

- No Material Safety Data Sheet required
- Waste not suited for recycling

### Main Applications

- Photorealistic image reproduction
- Pre-press proofing
- Indoor posters

### Printer/Ink Compatibility

Recommended for use in most photographic and display graphics inkjet printers including: Epson® Ultra Chrome and K3 series, Vivid Magenta series, Canon imagePROGRAF series, as well as Hewlett Packard® Z series and HP5500 series printers. For a complete compatibility chart on our website go to: www.usa.canon.com.

### Handling Recommendations

Due to the absorptive nature of the coating, you should avoid touching the coated surface. It is always recommended that cotton gloves be worn when handling inkjet coated materials. Rolls are supplied coated side out.

### Laminating

Can be overlaminated with either hot or cold laminates. Make sure that prints are completely dry prior to laminating.

### Important

Printer and driver settings need careful setup to help ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.
