Printer/Ink Compatibility

6POSTPSA is recommended for use with UVgel, UV-Curable, and Latex printers including Arizona UV, Vutek UV, HP UV, and Latex printers.

Finishing Recommendations

Wait 24 hours after printing to apply an overlaminating film. For best results, use a heat-activated overlaminating film.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.

Color Profiles

Arizona UV users can choose the HPSTRSOL profile. Colorado users can find the profiles in Onyx.
