

uniFLOW Online Named Outstanding Cloud Output Management Solution by Keypoint Intelligence

Support for hybrid working environments

Wide range of output management features

Access control and data protection capabilities

Robust portfolio of capture features and integrations with cloud services

For the fourth time in as many years, uniFLOW Online is taking home a BLI Award for Outstanding Cloud Management Solution.

The solution's continued success shouldn't come as a surprise, as Canon has been continually upgrading and improving the solution, ensuring that customers have access to the latest and greatest output management capabilities available.

In recent updates, Canon has added enhanced access control and scan/workflow functionality to protect sensitive data and optimize workflows where paper documents intersect with digital business processes.

Lee Davis, Associate Director of Software/Scanners at Keypoint Intelligence
