

To: Canon U.S.A., Inc. (“CUSA”) Distributors and Point of Sale Service Providers selling any Covered Battery products in or into California

Date: June 29, 2023

RE: Responsible Battery Recycling Act of 2022

Dear CUSA Distributors, Retailers, and Partners,

California has adopted Assembly Bill No. 2440 Section 42421.2(b)(3):

*Every producer shall, no later than 180 days after the effective date of this chapter, notify all persons through which it is selling, distributing, importing, or offering for sale a covered battery in or into the state for sale in or into the state whether it will comply with this chapter individually or through a stewardship organization.*

This communication serves to meet the notification of the Act, to all persons through which CUSA is selling, distributing, importing, or offering for sale a covered battery, that CUSA will comply with AB 2440 through participation in the Call2Recycle battery stewardship organization. CUSA is an active steward with Call2Recycle, a Battery Stewardship Organization (BSO) as of the date of this communication

This notification will also be included on CUSA’s website for sales of products into California.
