Chapter 3: Functional Performance Criteria (FPC)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	Vision is required to independently operate the physical buttons and touchscreen menus on the device. The EOS R50 V has a compact body with minimal tactile differentiation between controls and does not provide dedicated non-visual navigation controls. Some functionality is accessible through Canon remote-control software.
302.2 With Limited Vision	Partially Supports	Vision is required to independently operate the physical buttons and touchscreen menus on the device. The compact body and smaller button spacing of the EOS R50 V may present challenges for users with limited vision. Some functionality can be accessed through Canon remote-control software.
302.3 Without Perception of Color	Supports	
302.4 Without Hearing	Supports	

Criteria	Conformance Level	Remarks and Explanations
302.5 With Limited Hearing	Supports	
302.6 Without Speech	Supports	
302.7 With Limited Manipulation	Partially Supports	Physical tasks with the camera require fine motor control to press small buttons, operate the touchscreen, attach or remove the optional XLR audio adapter (when used), change the battery and memory cards, attach lenses, and plug in cables and accessories. The EOS R50 V's compact form factor results in smaller operable parts, which may present challenges for users with limited manipulation.
302.8 With Limited Reach and Strength	Partially Supports	The compact and lightweight design of the EOS R50 V reduces the strength required to lift or reposition the camera. However, reach and strength are still required to access ports and controls located around the body, to operate the touchscreen, and to handle batteries, cards, lenses, cables, and the optional XLR audio adapter (when used) assembly.
302.9 With Limited Language, Cognitive, and Learning Abilities	Partially Supports	Basic functions are accessible to users with limited cognitive or learning abilities. However, navigating advanced menu settings, exposure controls, and audio configurations (especially when using the optional XLR audio adapter) may require additional experience or training. Some accessibility is provided when connected to Canon remote-control software.
