**CLOUD
CONNECTOR**
A Convenient
Connection in
the Cloud

Pair Supported Canon MFPs to Select Cloud Services for Virtually Seamless Print and Scan Capabilities

Connecting to cloud services in the workplace is often a major contributor to overall efficiency. Cloud Connector from Canon is an easy-to-use application that connects third-generation imageRUNNER ADVANCE, imageRUNNER ADVANCE DX, MEAP-enabled imageFORCE, imagePRESS Lite, and supported imagePRESS models¹ with select cloud services², allowing users to expand their print and scan capabilities without the need for additional backend system configuration. This convenient solution includes simple setup and activation steps, and an uncomplicated, do-it-yourself user registration process.

There are Cloud Connector options that enable users to easily:

Connect to select cloud services

Scan and upload directly
to cloud storage

Print from the cloud
at the device

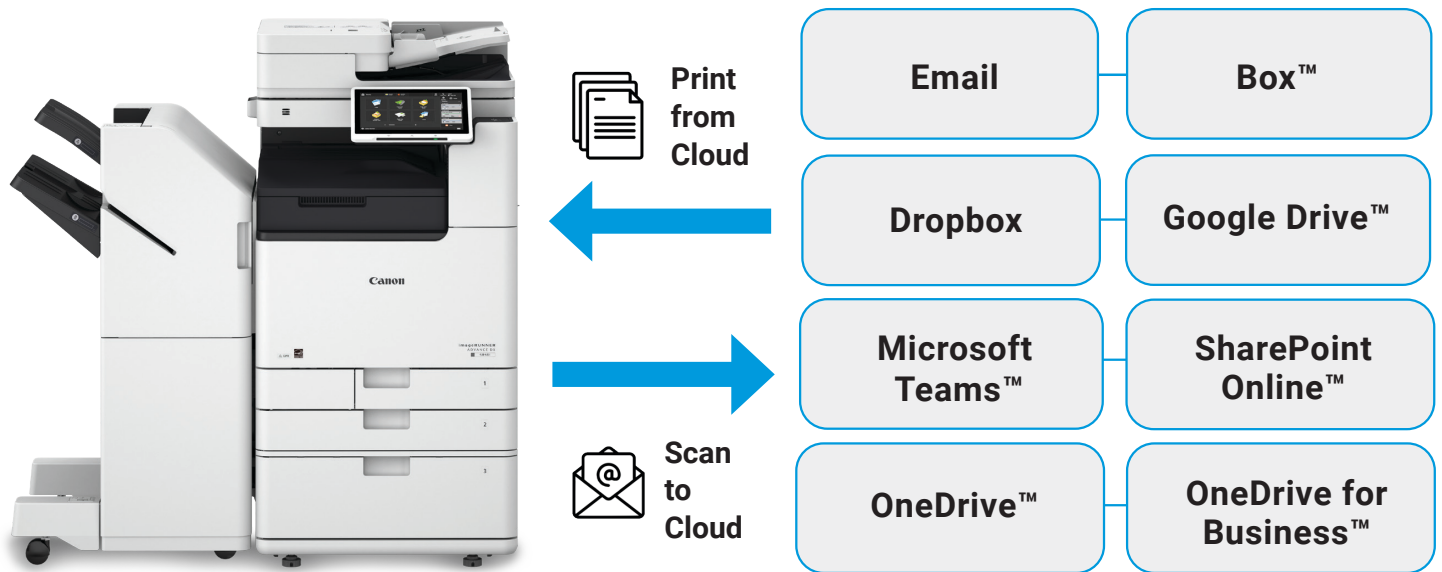

Scan to email without
admin set up

Print from email without
use of print drivers

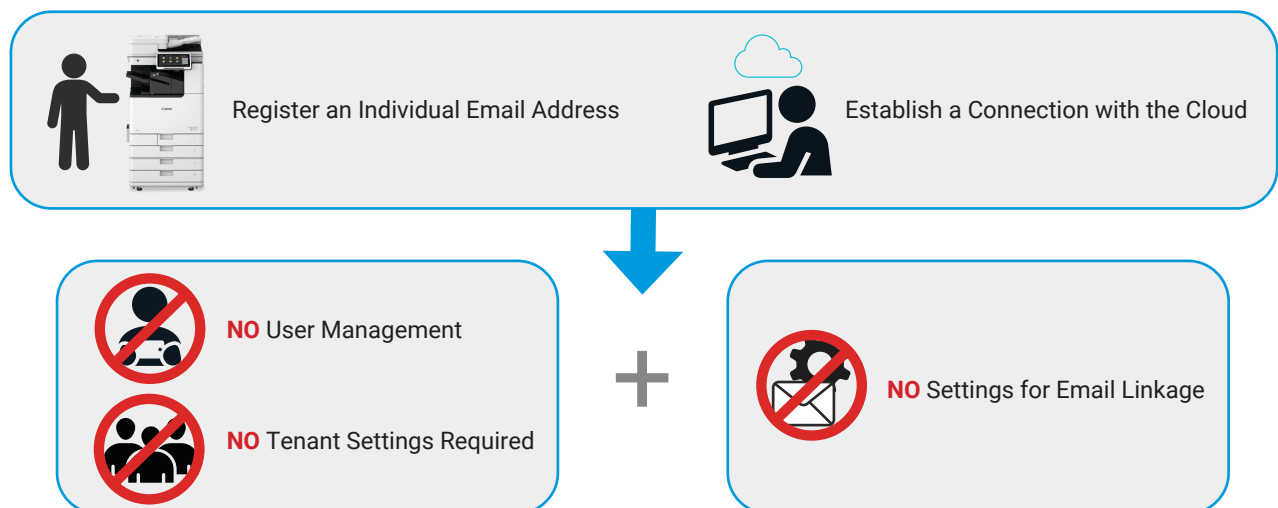

Connect Your Canon MFP to These Cloud Services with Cloud Connector

Note: One 3-year or 5-year term license required per destination per device. Each term license sold separately.³

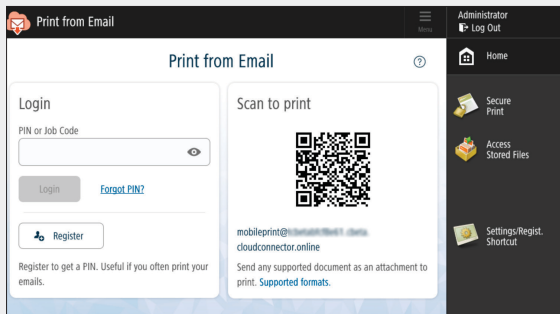

Cloud Connector Supports Users with an Independent Installation and Configuration Process

Once activated, users can single-handedly register for Cloud Connector without additional assistance from a Systems Engineer or Administrator.

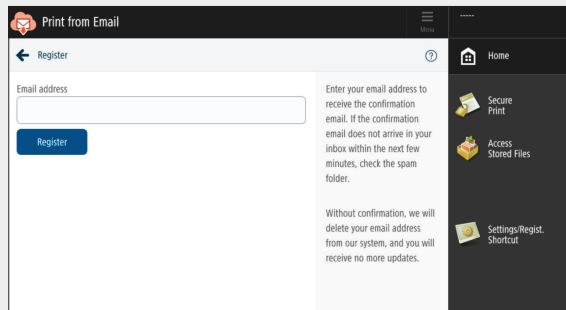

Experience Cloud Connector at Work

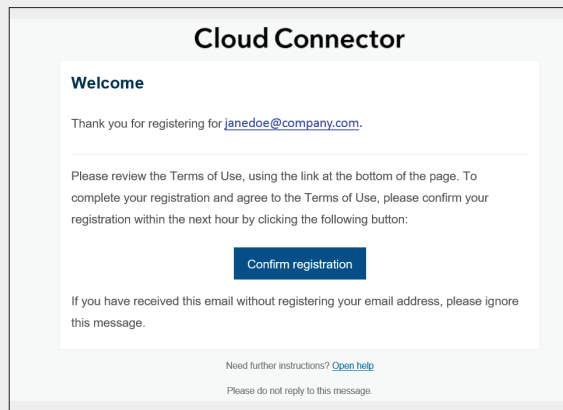

Simple User Registration Steps

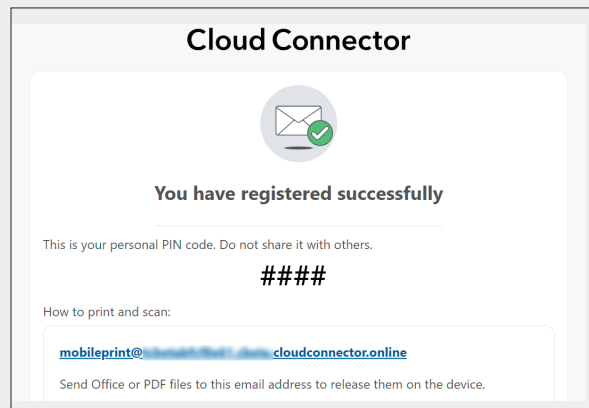

Select Register Button

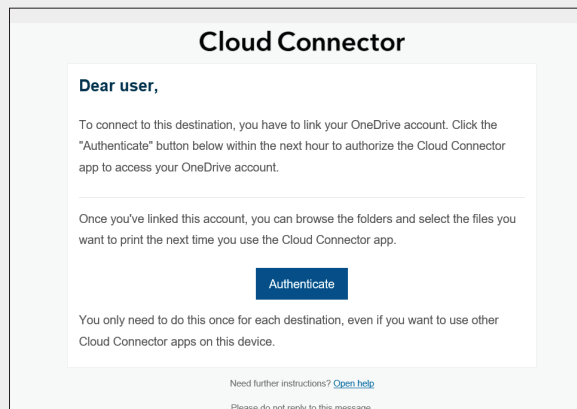

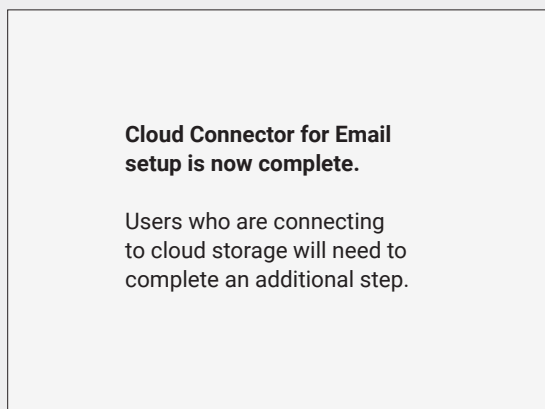

Enter Individual Email Address

Select Confirm Registration
on Email Received

An Automatically
Generated Pin Will Be Sent

Authenticate to Cloud Service

Note: If you do not log in to Cloud Connector within 30 days, you will need to re-register with the device.

20 MB

* Blue = default value

¹ Cloud Connector is available for third-generation imageRUNNER ADVANCE, imageRUNNER ADVANCE DX, MEAP-enabled imageFORCE, imagePRESS Lite, and the following imagePRESS models: imagePRESS V900, imagePRESS V800, imagePRESS V700. For a list of compatible MEAP-enabled Canon imageFORCE devices, please contact your Canon Authorized Dealer.

² Subscription to a third-party cloud service required. Subject to third-party cloud service provider's terms and conditions. Neither Canon Inc. nor Canon U.S.A., Inc. represents or warrant any third-party product or feature referenced hereunder.

³ Requires one Cloud Connector term license per destination per device (each term license sold separately), Internet connection, email service account, PC or mobile device, an account with one of the compatible cloud services (if connecting to one of the available Cloud Connector cloud destinations), and a compatible Canon MFP.

⁴ Excel data has limited printing compatibility with certain paper sizes, such as Oficio and Foolscap; attempting to print Excel data on an incompatible paper size will result in Letter-sized output.

⁵ Stapling options vary depending on finisher capabilities.
