# Cloud Connector

imageRUNNER ADVANCE DX

imagePRESS Lite

## CLOUD CONNECTOR

A Convenient Connection in the Cloud

## Pair Supported Canon MFPs to Select Cloud Services for Virtually Seamless Print and Scan Capabilities

Connecting to cloud services in the workplace is often a major contributor to overall efficiency. Cloud Connector from Canon is an easy-to-use application that connects third-generation imageRUNNER ADVANCE, imageRUNNER ADVANCE DX, imagePRESS Lite, and supported imagePRESS models[1] with select cloud services[2], allowing users to expand their print and scan capabilities without the need for additional backend system configuration. This convenient solution includes simple setup and activation steps, and an uncomplicated, do-it-yourself user registration process.

## There are Cloud Connector options that enable users to easily:

**Connect to select cloud services**

Scan and upload directly to cloud storage

Print from the cloud at the device

**Connect to user's own email**

Scan to email without admin set up

Print from email without use of print drivers

## Connect Your Canon MFP to These Cloud Services with Cloud Connector

Print from Cloud

Scan to Cloud

- Email
- Box™
- Dropbox
- Google Drive™
- Microsoft Teams™
- SharePoint Online™
- OneDrive™
- OneDrive for Business™

**Note:** One 3-year or 5-year term license required per destination per device. Each term license sold separately.[3]

## Cloud Connector Supports Users with an Independent Installation and Configuration Process

Once activated, users can single-handedly register for Cloud Connector without additional assistance from a Systems Engineer or Administrator.

Register an Individual Email Address

Establish a Connection with the Cloud

**NO** User Management

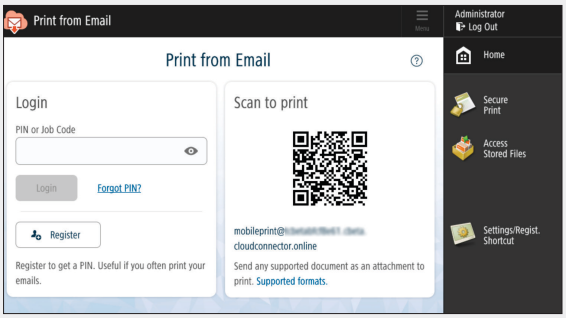
**NO** Tenant Settings Required

+

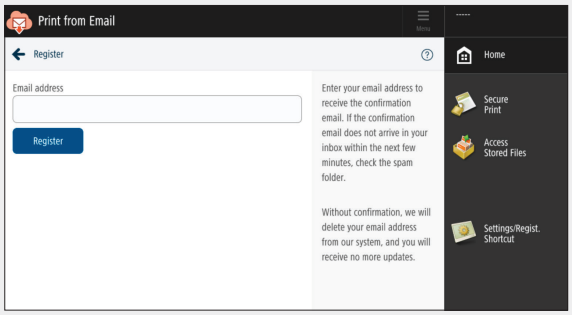
**NO** Settings for Email Linkage

# Experience Cloud Connector at Work

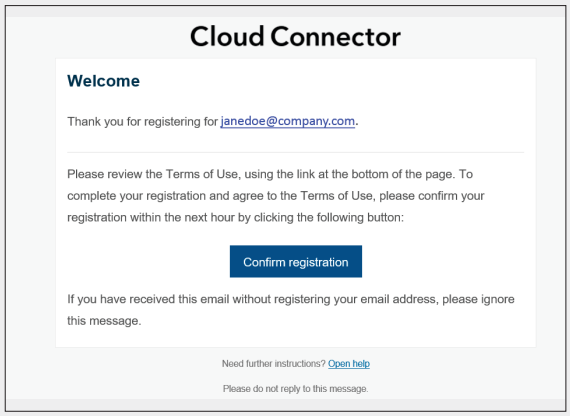
Simple User Registration Steps



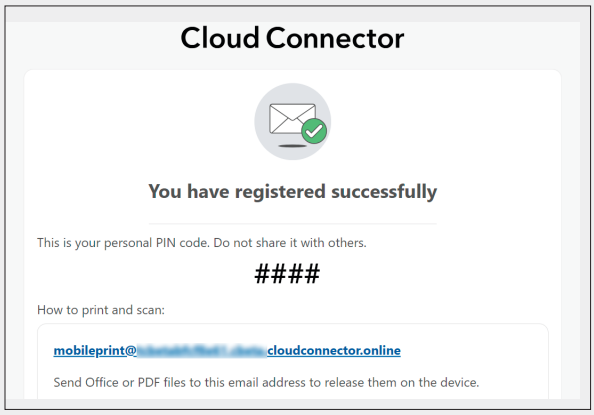
Select Register Button



Enter Individual Email Address



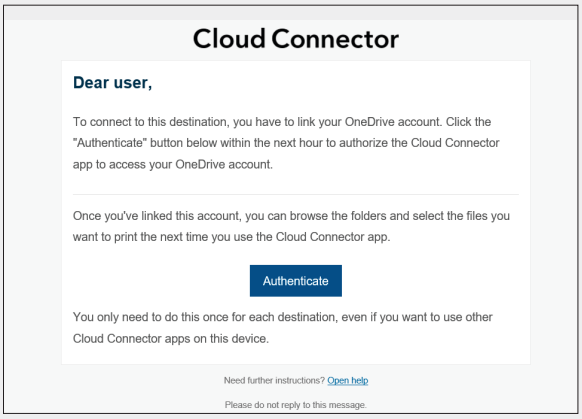
Select Confirm Registration on Email Received



An Automatically Generated Pin Will Be Sent

**Cloud Connector for Email setup is now complete.**

Users who are connecting to cloud storage will need to complete an additional step.



Authenticate to Cloud Service

**Note:** If you do not log in to Cloud Connector within 30 days, you will need to re-register with the device.

# SPECIFICATIONS

20 MB

* Blue = default value

[1] Cloud Connector is available for third-generation imageRUNNER ADVANCE, imageRUNNER ADVANCE DX, imagePRESS Lite, and the following imagePRESS models: imagePRESS V900, imagePRESS V800, imagePRESS V700.
[2] Subscription to a third-party cloud service required. Subject to third-party cloud service provider's terms and conditions. Neither Canon Inc. nor Canon U.S.A., Inc. represents or warrant any third-party product or feature referenced hereunder.
[3] Requires one Cloud Connector term license per destination per device (each term license sold separately), Internet connection, email service account, PC or mobile device, an account with one of the compatible cloud services (if connecting to one of the available Cloud Connector cloud destinations), and a compatible Canon MFP.
[4] Excel data has limited printing compatibility with certain paper sizes, such as Oficio and Foolscap; attempting to print Excel data on an incompatible paper size will result in Letter-sized output.
[5] Stapling options vary depending on finisher capabilities.
[6] If there is no license for searchable PDF, it does not come with OCR text.
