

Contactless Secure Printing With uniFLOW Mobile App

Helping To Minimize Touch-Points

Release Your Print Jobs From Your Mobile Device

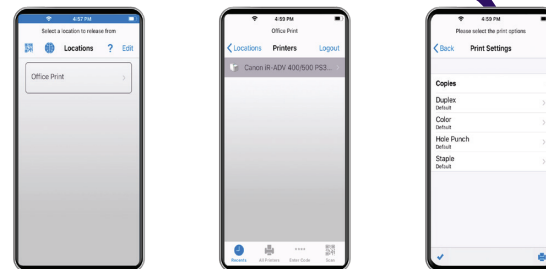

uniFLOW accounts for the job the same way as if it were released from an imageRUNNER ADVANCE MFP or imagePRESS Lite.

- 1** Scan the QR Code on the MFP.*

- 2** Authenticate with your User Name and Password. Tap Login.

- 3** Select the job(s) to print from the "Documents" list.

- 4** Select "Print Settings" to update your finishing options.

- 5** Select "Print and delete" or "Print."

Make It Your Own!

- ✓ Set the default screen when starting the uniFLOW app (i.e., Selection Location, Last Location, QR Scan Code).
- ✓ Set commonly used printers.
- ✓ Set your go-to finishing options (e.g., Color/BW, Simplex/Duplex, Staple, Hole Punch).

For more technical questions and information, please refer to the [online manual](#).

* There are several ways to configure users to their location. This scenario assumes QR code.
NOTE: The uniFLOW app is available for Apple®, Android, and Windows® phones. It is compatible with on-premise uniFLOW and uniFLOW for SMB. It is not compatible with uniFLOW Online and uniFLOW Online Express.

Canon products offer certain security features, yet many variables can impact the security of your devices and data. Canon does not warrant that use of its features will prevent security issues.
