imagePROGRAF Large Format Printer

imagePROGRAF GP-4600S

imagePROGRAF PRO-4600

imagePROGRAF TM-615

PRINT LAB

Recommended:

imagePROGRAF GP S Series Large Format Printer

Retractable Banners

Print pull-up signs to display in different campus common spaces to showcase events, open enrollment, entertainment, department information, and more.

Banners

Display signage in multiple indoor common spaces or for numerous occasions such as theater, sports, fundraisers, libraries, welcome, graduation, and more.

Short-Term Outdoor Signage

Great for promoting seasonal campus festivities, directing foot traffic during orientation, providing safety detours for active construction sites, and highlighting temporary athletic or alumni events. Printed on Canon water-resistant vinyl and mounted on a board, the signage remains vibrant and resists fading for up to six months outdoors.

Athletics

Get in the spirit with creative indoor graphic adhesives, event posters, athletic achievements, directional markers, facilities information, and more.

FACILITIES MANAGEMENT

Recommended:

imagePROGRAF™ Series Large Format Printer

Technical Drawings

Produce crisp, fine lines and clear, colorful text which is essential for architectural and engineering projects on campus.

Directional/Event Signage

Create colorful, precise, and smudge-resistant signage on durable Canon media for clear navigation within high-traffic environments.

General Posters

Craft colorful generic marketing and informational posters, expanding the use of your printer by bringing creative workflow in-house.

ACADEMIC MAJORS & PROGRAMS

Engineering Departments

Recommended Device: imagePROGRAF TM Series

Print high-precision blueprints, 3D renders, and GIS maps needed for an array of academic majors such as architecture, engineering, construction, and interior design.

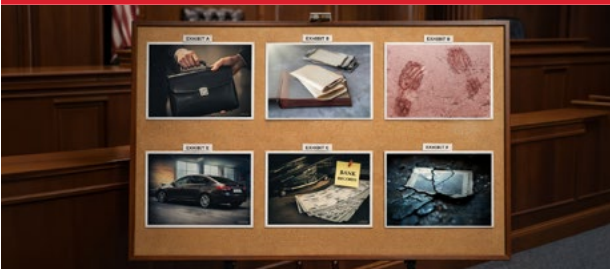

Art & Graphic Design

Recommended Device: imagePROGRAF PRO Series

Produce gallery-quality photography and fine art reproductions with archival-grade color accuracy and deep black densities, ensuring that student and faculty work meets professional exhibition standards.

Legal Studies

Recommended Device: imagePROGRAF GP S Series

Print general posters to promote law studies or utilize printing for photographic evidence needed for trials and cases.

imagePROGRAF GP S SERIES

Key Features

Ink: 7-color pigment aqueous ink delivers spectacular quality and a wide color gamut while maintaining the durability required for the graphics and signage market.

Brand Recognition: The Orange and Gray inks included within the 7-color ink system significantly help to expand the color gamut, hitting 96% of PANTONE™ Formula Guide Solid Coated. This allows the GP S Series to accurately reproduce bold colors and smooth gradations, great for university branding.

Ease of Use: Body design and features help with your workflow, such as semi-translucent ink tank and media covers, simple control panel prompts, color calibration, interior LED lights, and more.

Intelligent Media Handling: Automatic media feeding with automatic media type, width, and length detection helps reduce time and waste. The multifunction roll unit—standard on the GP-6600S and optional on the GP-2600S/4600S—allows you to add a second media roll or use it as a take-up reel.

Expansive Media Compatibility: Print on a wide range of media from water resistant vinyl for short-term outdoor signage to luster for graphic reproduction.

Models	Max Media Size	Inks
GP-2600S	24" Wide	7-color
GP-4600S	44" Wide	7-color
GP-6600S	60" Wide	7-color

imagePROGRAFTM Series

Key Features

Ink: 5-color pigment aqueous ink allows users to execute precise line drawings and renderings while also producing attention-grabbing displays and posters for everyday use.

Ease of Use: Features such as color calibration, automatic media detection, and simple icons and prompts on the control panel, are crucial for a seamless workflow.

Body Design: This compact printer fits in tight workspaces and features a flat-top body design for effortless media loading. Its large, fold-down control panel is designed for maximum accessibility and ease of use.

Expansive Media Compatibility: Print on a wide range of media from 20lb bond to glossy photo to water resistant polypropylene for short-term outdoor signage.

Models	Max Media Size	Inks
TM-500/600	24"/36" Wide	5-color
TM-510/610	24"/36" Wide	5-color
TM-615	36" Wide	5-color

imagePROGRAF PRO Series

Key Features

Ink: 11-color pigment aqueous ink system plus Chroma Optimizer allows users to bring their digital artwork to life with ease.

Scratch Resistance: The inclusion of crystalline wax within the pigment ink enhances the durability and longevity of every print job, providing superb scratch resistance and excellent lightfastness.

Ease of Use: Simple body design helps with your workflow, such as semi-translucent ink tank and media covers, simple control panel prompts, interior LED light, and more.

Production Capabilities: The multifunction roll unit—standard for the PRO-6600, optional for PRO-2600/4600—gives users the capabilities to use as a second roll, to have two different media on a printer, or as a take-up reel.

Expansive Media Compatibility: Print on a wide range of media, such as canvas, matte coated paper, luster, and water resistant matte polypropylene for expansive output opportunities.

Models	Max Media Size	Inks
PRO-2600	24" Wide	11-color + Chroma Optimizer
PRO-4600	44" Wide	11-color + Chroma Optimizer
PRO-6600	60" Wide	11-color + Chroma Optimizer

FREE imagePROGRAF SOFTWARE

Create Designs With Confidence

- An online template-driven poster-creation software.
- Create posters, banners, signage, and more in just four easy steps.
- Seamless workflow from design to print straight to your compatible Canon printer, all from the platform.

Seamless Innovative Workflow

Direct Print Plus

- A document-printing workflow software.
- Print a wide range of file formats with ease, such as JPEG, PDF, and Microsoft Office® tools.
- Simple print-setting prompts make workflow a breeze, even in a time crunch.

Simple Editing & Printing

Professional Print & Layout

- A photo production solution application.
- Drag and drop PDFs, JPGs, PNGs, and TIFF files and preview them on a cut sheet or media roll before printing.
- Add ICC profiles, set layouts, and make small light and tone adjustments with ease.

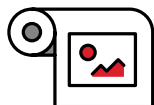

Track Costs With Ease

Accounting Manager

- A centralized print job management application.
- Monitor the amount of ink used and paper consumed for each print job per user for your imagePROGRAF printers.

Batch & Tile Printing In A Breeze

Free Layout Plus

- A printing workflow software.
- Easily create and print posters by freely changing the layout of files from different application software, such as Microsoft Office® and Adobe Photoshop®.
- Create and print Fixed Layout, Free Layout, Tiling, or Folded Duplex projects.
