Professional Connector and Cloud Connectors are included in all IRIS Powerscan editions offered with the exception of IRIS Powerscan SMB Essentials.

The included Professional Connector does not activate Laserfiche connector. Scanning to Laserfiche requires the purchase of an additional IRISConnect license.

Professional Connector (aka IRISConnect for Back-end Systems): compatible with Toolbox (default), SharePoint, Therefore™, FTP, ODBC, CMIS (one license needed per software destination)

Cloud Connectors (aka IRISConnect for Cloud Platforms): Box, Dropbox, Google Drive, OneDrive for Business; (one license needed per cloud storage destination)

Subscription to a third-party cloud service required. Subject to third party cloud service providers terms and conditions. Third party compatibility is as of July 1, 2024.

Connectivity to additional systems via an IRISConnect license requires professional services; additional charges will apply dependent on target application, version or configuration
