Canon

LARGE-FORMAT PRINTING SOLUTIONS

HELPING YOU REACH NEW HEIGHTS

A FAMILY OF SOLUTIONS

LARGE-FORMAT PRINTING SOLUTIONS. CANON INNOVATION IN EVERY PRINT.

As a worldwide innovation leader for more than 80 years, Canon has a legacy of cultivating breakthrough technologies. Its expertise in the areas of science, engineering, and manufacturing has produced world-leading imaging solutions and consistent placement among the top U.S. patent holders of the decade.

This corporate culture of technological innovation drives the company to produce an ever-expanding range of large-format printing solutions, each one carefully crafted to address specific customer needs in each market segment served. As a result, the large-format family has grown into a broad array of solutions that offer Canon's customers more features, functions, and options than ever before.

Today, the line of Canon large-format printers is at the forefront of the industry. Canon's award-winning printers are an ideal platform for innovation. Specialized customer solutions and applications range from fine art and photography and textiles, to production printing, technical documents, and general purpose poster-making.

You can extend your application capabilities even further with incredible leading technologies such as varnish, white ink, and raised texture printing, and complement with smart cutting and finishing accessories. In fact, your potential to profit from creating high-value output is limited only by your imagination.

The following devices are shown above, from left to right and top to bottom:

Colorado M-series; colorWAVE T65*; plotWAVE T30**; imagePROGRAF TZ-32000 MFP Z36; Arizona 2300 series GTF***; imagePROGRAF PRO-6600; imagePROGRAF TM-615; imagePROGRAF TX-3310 MFP Z36; imagePROGRAF GP-4600S; imagePROGRAF GP-4000 with optional MFR

GRAPHIC DESIGN SOLUTIONS

ARIZONA SERIES

Canon Arizona UV flatbed printers are all based on a true, stationary platform delivering exceptional image quality and application versatility. These printers can print directly onto rigid substrates and are also capable of printing on roll-fed media when equipped with the Roll Media Option. The prints are suitable for indoor and outdoor use and the inks are GREENGUARD Gold certified. Arizona series printers give professional print service providers the ability to offer premium printing services.

- True stationary flatbed versatility and performance at an exceptional price
- FLXflow Hold to help reduce the need for taping and masking
- Optional FLXflow Float for easier handling of substrates
- 4-, 6-, or 8-channel models with white, varnish, light cyan, and light magenta inks
- Roll Media Option available for true roll-to-roll capability
- VariaDot imaging technology for near-photographic results
- Instant switching between flatbed printing and optional roll-to-roll
- ONYX Thrive enables a true end-to-end PDF workflow from digital file submission through color management, printing, and cutting

MODEL	MAXIMUM SIZE
2300 Series XTF	98.4” x 121.3” x 2” flatbed, 86.6” wide roll

GRAPHIC DESIGN SOLUTIONS

COLORADO M-SERIES

Colorado series roll-to-roll printers are designed to deliver accurate, repeatable prints at high print speeds. With FLXfinish+, the Colorado printer series can print matte and gloss on one print, in one pass, to create beautiful and striking output! The newest member of the family, the Colorado M-series, was designed to allow you to say "yes" to more jobs, create stunning applications, and reduce turnaround times. Its modular architecture allows it to grow with your business, and is designed for low cost of ownership.

Colorado M-series

White Ink Configuration

- Fastest 64" production printer in its class to help reduce production times
- Optional UVgel white ink* helps reduce hassles related to printing with white ink
- Easily add speed*, dual-roll capabilities*, and other features as your business grows
- Use FLXfinish+* to print matte and gloss on the same print without varnish
- Create micro textures on prints with FLXture*
- Lower ink usage can help lower production costs
- Unattended production helps enable labor savings
- Highly accurate color and geometric consistency help to reduce rework and waste
- Jumbo Roll and Wallpaper Factory capabilities help create labor savings
- ONYX Thrive enables a true end-to-end PDF workflow from digital file submission through color management, printing, and cutting

GRAPHIC DESIGN SOLUTIONS

COLORADO XL-SERIES

The Colorado XL-series 11-foot printers offer stunning roll-to-roll and rigid prints with Canon's advanced UVgel technology. The XL-series combines speed, vibrant color, and media versatility—ideal for bold graphics, signage, and creative applications—all from one powerful device.

- Modular Design: Easily upgrade features to extend your investment.
- UVgel 860 Inks: Durable, low-odor inks with a wide color gamut for consistent results.
- Optional UVgel White Ink*: Help reduce the hassles related to printing with white ink.
- Next-Gen 850 UVgel Printheads: Dual-channel heads print four colors with two printheads; optional third printhead for UVgel white ink.*
- TRIdrive Vacuum Belt: Uses a three-roller system that helps maintain precise media tension and alignment.
- DynamicMotion Control: Captures a snapshot of the media surface and adjusts printhead movement in real time for accurate output.
- FullBeam Curing: Delivers uniform curing across the entire print width.
- Gloss or Matte Print Finishes: Expands creative possibilities.
- FLXture Technology: Adds micro textures for unique effects.*

GRAPHIC DESIGN SOLUTIONS

imagePROGRAF GP SERIES

The imagePROGRAF GP series printers are the world's first large-format printers with aqueous pigment Fluorescent Pink ink*, equipped with Canon's unique Radiant Infusion which layers the Fluorescent Pink ink with other inks on the paper surface during printing to create bright and soft color reproduction.

The 44" GP-4000 and 24" GP-2000 are 10-color plus Fluorescent Pink ink large-format printers. With the Red, Orange, Green, Violet, and Fluorescent Pink inks, the imagePROGRAF GP-2000 printer has the largest color gamut of any imagePROGRAF printer to date.

GP-4000

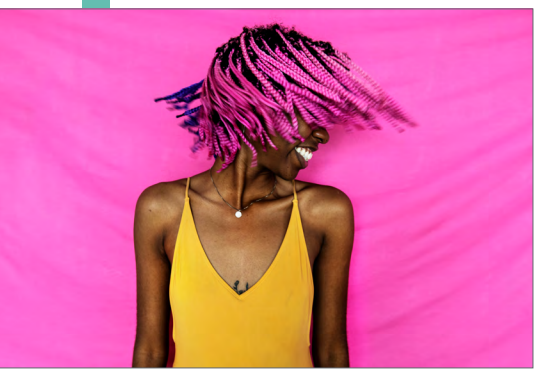

GP-2000

- imagePROGRAF GP series, the world's first* aqueous inkjet models to include Fluorescent Pink ink
- The world's first PANTONE® calibrated printers for PANTONE® PASTELS & NEONS GUIDE coated
- Intelligent Media Handling
- Built-in color calibration

PRODUCTION CAD / TECHNICAL DOCUMENT SOLUTIONS

colorWAVE SERIES

Push the boundaries of your large-format printing with the colorWAVE series, a high-performance color printer with optional scanning and copying capabilities in one convenient footprint. Gain a competitive edge with distinctive high-quality wide format drawings and presentations without the need for expensive coated paper. With its intuitive design, the colorWAVE series color printer is designed for easy end-user walk-up capability using ClearConnect controller software.

colorWAVE T60

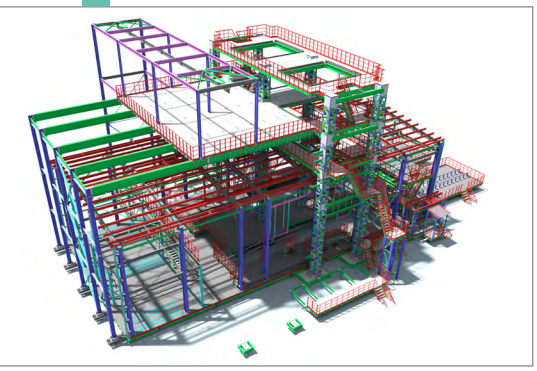

colorWAVE T65

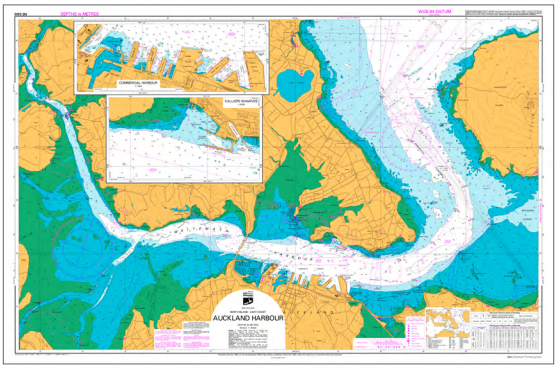

- The prints are instantly dry with the patented CrystalPoint technology
- Designed to help ensure robust, waterfast prints with sharp lines, high readability of fine details, and smooth, even area fills
- ImageLogic Technology designed for the Scanner Express to transform imperfect originals into professional-grade scans and copies
- Built-in security features
- Integrated job submission software
- 2 - 6 rolls capacity
- Up to 25,000 square feet per month
- Up to 4 D-size prints per minute*

PRODUCTION CAD / TECHNICAL DOCUMENT SOLUTIONS

plotWAVE SERIES

The plotWAVE series is ideal for decentralized low-volume to mid-volume walk-up printing environments. These devices are utilized by workgroups of monochrome CAD professionals who require both productivity and ease of use, leveraging the latest controller hardware running Windows 10 IoT Enterprise LTSC 2021 (64-bit) operating system, and new standard security features. The Scanner Express IV option integrates directly on top of the printer for a Single Footprint MFP configuration.

- Radiant Fusing Technology: Eco-friendly fusing method, providing instant-on printer availability with no warm-up time
- ImageLogic Technology designed for the Scanner Express to transform imperfect originals into professional-grade scans and copies
- Integrated job submission software
- Built-in security features
- Up to 6 rolls capacity

PRODUCTION CAD / TECHNICAL DOCUMENT SOLUTIONS

imagePROGRAF TZ SERIES

The imagePROGRAF TZ Series seizes and expands the production aqueous inkjet market with its ability to print black-and-white line drawings and full-color posters on multiple media substrates that LED devices are unable to support. The hybrid model is uniquely qualified to capture market share where overall print volumes are trending lower and the need to get more out of a machine is a business necessity. The MFP includes the Z36 scanner and intuitive system controller, making it a powerful addition to Canon's portfolio of large-format printers, perfect for scanning maps, drawings, and renderings.

TZ-32000

TZ-32000 MFP Z36

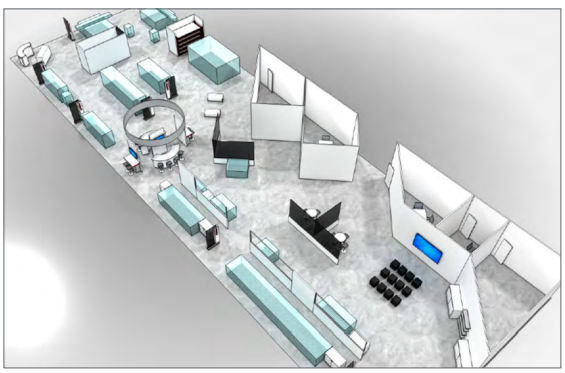

- 5-Color LUCIA TD pigment ink
- Intelligent Media Handling that is 34% faster than previous models*
- Up to 4 D-size prints per minute**
- Up to 243 D-size prints per minute**
- Integrated 100-print capacity top stacker
- Dual-roll Intelligent Media Handling System that detects media type, width, and length
- Scan monochrome drawings at up to 13" per second and color up to 6" per second***

imagePROGRAF

Large-Format Media

Canon media delivers consistently superb image quality and product performance. Rigorous testing helps ensure compatibility with imagePROGRAF printers to provide the best image quality possible.

Canon's extensive media portfolio helps meet the demands of any project—from drafting technical designs and producing point-of-purchase displays to creating exquisite photographic and fine art reproductions.

PHOTOGRAPHIC

Canon's extensive range of high-end photographic papers is designed to make accurate, high-definition reproduction effortless. From professional portraits to vibrant glossy prints, these premium media options bring digital art to life.

FINE ART

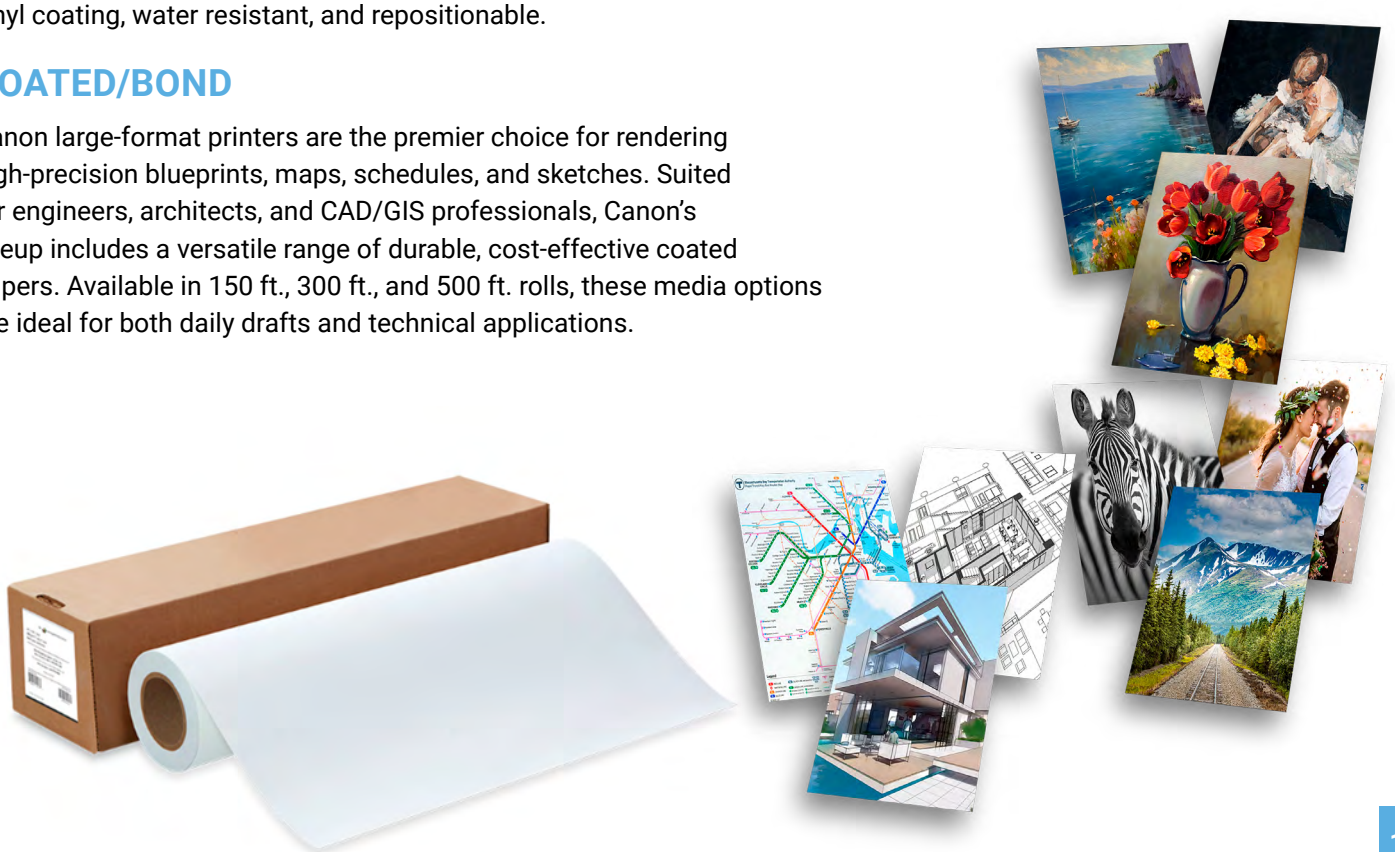

Canon's Fine Art Media delivers superb reproduction for both digital art and traditional paintings. With options ranging from etched textures and classic canvas to durable water-resistant styles, there is a professional solution for every creative vision.

SIGN/BANNER/DISPLAY MEDIA

Eye-catching signs, bulletins, and announcements are easy to create with Canon large-format printers. To suit every application, our sign and banner media are tear-resistant and offer a variety of special features, including adhesive backing, vinyl coating, water resistant, and repositionable.

COATED/BOND

Canon large-format printers are the premier choice for rendering high-precision blueprints, maps, schedules, and sketches. Suited for engineers, architects, and CAD/GIS professionals, Canon's lineup includes a versatile range of durable, cost-effective coated papers. Available in 150 ft., 300 ft., and 500 ft. rolls, these media options are ideal for both daily drafts and technical applications.
