Whether you need a stock or customized label for your product, Canon U.S.A.'s experts are here to help you. Based on your requirements, we can help determine the label best suited for your application.

We have a wide variety of labels that can help satisfy your needs, including customization options that can support your industry.

SPECIALTY FOODS

- Easy to Remove Adhesives
- Resistant to Water and Moisture
- Customized Die Cut Labels

REFRIGERATED AND FROZEN FOODS

- Accommodates Low Temperatures
- Resistant to Water and Moisture

BOTTLED FOODS AND DRINKS

- Resistant to Water and Moisture
- Adheres to Glass
- Customized Die Cut Labels
- Durable

WINE AND SPIRITS

- Easy to Remove and Reposition
- Resistant to Water and Moisture

CHEMICAL AND SOLVENTS

- Accommodates Booklet/ Lengthy Content
- Resistant to Solvents and Chemicals

HEALTH AND BEAUTY

- Resistant to Chemicals and Water
- Accommodates Content Presented in a Narrow Format
- Customized Die Cut Labels

BIOMEDICAL PHARMACEUTICAL

- Accommodates Booklets/ Lengthy Content
- Resistant to Steam
- Compliant with Clean Room Classifications

E-JUICE AND ESSENTIAL OILS

- Resistant to Chemicals and Oils
- Customized Die Cut Labels
- Accommodates Lengthy Content in a Narrow Format

GENERAL PURPOSE

- Budget Friendly
- Long Lasting

CBD CANNABIS

- Customized Die Cut Labels
- Water, Chemical, Oil Resistant
- Accommodates Content Presented in Narrow Format

HORTICULTURE

- Suited for Outdoor Elements and Resistant to UV Fading
- Strong Adhesives that Adhere to Garden Tools and Clay and Plastic Pots

CUSTOMIZATION

Canon U.S.A. understands that customization is often required. Our experts can walk you through a variety of options and help you choose the shapes and sizes that fit your needs. In addition, we will work with you to recommend the right label material and provide a custom die so you can brand your product.

The media guide that follows will provide you with insight on the label that works best with your application.

Contact us to schedule a time to discuss your labeling needs.

MEDIA GUIDE

TRANSPARENT, GLOSSY POLYPROPYLENE LABELS				
LABEL MATERIAL	BIOMEDICAL & PHARMACEUTICAL	COSMETICS, HEALTH & BEAUTY	SPECIALTY FOODS	WINE & SPIRITS
Clear Polypropylene – Receptive to inkjet label printing and works well with photographic images for display labels that require resistance to both moisture and solvent exposure.	X	X	X	X
Clear PET – The PET label is transparent and glossy, creating durability that is perfect when printing photographic images for display labels that require a resistance to moisture and exposure to solvents. The adhesive implemented is both UV-stable and resistant to heat.	X	X	X	X
Clear Polypropylene – Transparent label that can be utilized with both dye and pigment inkjet inks. Perfect for applications that must have resistance to both water and chemicals.	X	X	X	X

BS5609 & CRYOGENIC COMPLIANT LABELS			
LABEL MATERIAL	BIOMEDICAL & PHARMACEUTICAL	CHEMICAL & SOLVENTS	E-JUICE & ESSENTIAL OILS
Matte White Kimdura – Compliant with BS5609 section 3, for labels that are subject to rough environments such as contact with chemical solvents, UV light, and abrasion.	X	X	X
Matte Polypropylene Cryogenic – Ideal for color matching, the durable, smudge-proof matte white polypropylene meshes with water-based pigment inks, has an excellent matte appearance, and is resistant to solvents and moisture to help endure rigid environments.	X	X	

GLOSSY PET (POLYETHYLENE TEREPHTHALATE) LABELS							
LABEL MATERIAL	BIOMEDICAL & PHARMACEUTICAL	CHEMICAL & SOLVENTS	COSMETICS, HEALTH & BEAUTY	SPECIALTY FOODS	E-JUICE & ESSENTIAL OILS	REFRIGERATED & FROZEN FOODS	WINE & SPIRITS
Premium High Gloss PET – This gloss white PET label is favorable to inkjet label printing and resistant to heat and moisture. It provides a durable foundation with UV-cured waterproof adhesive that is ideal for photographic images for displays.	X	X	X	X	X	X	X
High Gloss PET – Ideal for printing packaging labels, this gloss white PET material works well with water-based dye and pigment inkjet ink.	X	X	X	X	X	X	X

GLOSSY PET (POLYETHYLENE TEREPHTHALATE) LABELS

LABEL MATERIAL	BIOMEDICAL & PHARMACEUTICAL	CHEMICAL & SOLVENTS	COSMETICS, HEALTH & BEAUTY	SPECIALTY FOODS	HARDWARE	GENERAL PURPOSE	E-JUICE & ESSENTIAL OILS	REFRIGERATED & FROZEN FOODS	WINE & SPIRITS
Gloss Polypropylene Freezer – This white polypropylene label, receptive to inkjet label printing, is sturdy and stands up to moisture and some solvents. With freezer-grade adhesive and a high-gloss finish, it is perfect for printing photographic images on primary display labels.	X							X	
Gloss Polypropylene Removable – Impervious to moisture and some solvents, this white polypropylene label, with a high-gloss finish, has proven to excel from a durability standpoint and aligns perfectly with inkjet label printing.				X				X	X
Satin Polypropylene – This white polypropylene label sticks to a slew of substrates and is receptive to inkjet label printing. It has a striking satin coat that offers durability when producing photographic images on primary display labels that require protection from moisture and solvent exposure.			X	X			X		X
Gloss Polypropylene – This white polypropylene label has a high-gloss finish and gels nicely with inkjet label printing to supply strength that is perfect for printing photographic images on primary display labels that require moisture and solvent resistance. Frequent printing cleanings are required due to heavy coat weight and dynamic adhesive strength.	X		X	X	X	X	X	X	X

MATTE POLYPROPYLENE LABELS

LABEL MATERIAL	BIOMEDICAL & PHARMACEUTICAL	CHEMICAL & SOLVENTS	E-JUICE & ESSENTIAL OILS	REFRIGERATED & FROZEN FOODS	WINE & SPIRITS
Matte Polypropylene – Perfect for pigment inks, the durable matte white polypropylene label, which is high solvent and moisture resistant, provides excellent color matching with a high-caliber appearance. The sturdy material is perfect for primary display and secondary packaging labels featuring photography and additional color images.	X	X	X	X	X

CARD STOCK		
LABEL MATERIAL	HARDWARE	GENERAL PURPOSE
Gloss Card Stock 8 pt. – This high-gloss paper cardstock, suitable for the apparel industry, supports dye-based inks and supplies excellent print quality.	X	X
Gloss Card Stock 10 pt. – This cast-gloss-coated paper tag stock meshes with water-based dye ink to provide outstanding contrast and brilliant colors. Certified by the Forest Stewardship Council (FSC), this stock is suitable for high-quality printing applications.	X	

WINE LABELS			
LABEL MATERIAL	SPECIALTY FOODS	BOTTLED FOODS & DRINKS	WINE & SPIRITS
Matte White Wine Label – This ultra-white label, which can endure moisture, provides an eggshell-like look and is engineered for water-based inkjet printing.	X	X	X
Matte Vellum Wine Label – This matte off-white paper label, engineered for wine and beverage applications calling for high image quality, is resistant to moisture and blends a high-scaled matte appearance with outstanding color matching and a vellum finish.	X	X	X

COVER-UP LABELS						
LABEL MATERIAL	COSMETICS	CHEMICAL & SOLVENTS	GENERAL PURPOSE	SPECIALTY FOODS	BOTTLED FOODS & DRINKS	WINE & SPIRITS
High Gloss Cover-up Paper with Tinted Adhesive – Perfect for producing full-color, photographic images on primary display labels to cover up other labels or printed surfaces, this white glossy paper sticks to a wide spectrum of substrates.		X	X	X	X	
High Gloss Paper Removable – This white paper label, with a powerful gloss finish, provides strength, moisture resistance, and a removable, solvent-free adhesive that is suitable for producing photographic images on primary display labels.	X			X	X	X

PAPER LABELS							
LABEL MATERIAL	COSMETICS	HARDWARE	GENERAL PURPOSE	SPECIALTY FOODS	BOTTLED FOODS & DRINKS	E-JUICE & ESSENTIAL OILS	REFRIGERATED & FROZEN FOODS
Matte Paper – Providing a high quality matte look for both primary and secondary packaging labels, this matte white paper label works with water-based dye and pigment inks.		X	X	X	X	X	X
Premium Matte Paper – This premium matte paper, which provides a high quality appearance on labels that implement photography or other color images, is impervious to smudging, abrasion, and unintentional moisture contact.		X	X	X	X	X	
Semi-gloss Paper – The semi-gloss white label, ideal for inkjet label printing, is an economical alternative engineered to supply outstanding print while providing resistance to moisture and smudging.				X	X	X	
High Gloss Paper – This high-gloss white paper label supplies a first-rate shine that's coveted for primary display labels that showcase photography. It also offers outstanding adhesion to materials such as corrugated boards, packaging films, and plastics.	X	X	X	X	X	X	X

For a stock label where no customization is required, review the list below.

LABEL	DESCRIPTION
INKJET LABELS • HIGH GLOSS PAPER, PERM • 3" CORE, 8" OUTER DIAMETER A general purpose permanent adhesive that is designed to stick to corrugated board, plastics, and packaging films. This high-gloss white paper label provides a premium shine desired for primary display labels featuring photographic images. APPLICATION Used when photo quality is important.	
2" x 1" Inkjet High Gloss, Perm	4,000/Roll, 8/Box
