LEVEL UH LARGE FORMAT PRINTING SOLUTIONS **HELPING YOU REACH NEW HEIGHTS**

Canon

A FAMILY OF SOLUTIONS

LARGE FORMAT PRINTING SOLUTIONS. CANON INNOVATION IN EVERY PRINT.

As a worldwide innovation leader for more than 80 years, Canon has a legacy of cultivating breakthrough technologies. Its expertise in the areas of science, engineering, and manufacturing has produced world-leading imaging solutions and consistent placement among the top U.S. patent holders of the decade.

This corporate culture of technological innovation drives the company to produce an ever-expanding range of large-format printing solutions, each one carefully crafted to address specific customer needs in each market segment served. As a result, the large-format family has grown into a broad array of solutions that offer Canon's customers more features, functions, and options than ever before.

Today, the line of Canon large-format printers is at the forefront of the industry. Canon's award-winning printers are an ideal platform for innovation. Specialized customer solutions and applications range from fine art and photography and textiles, to production printing, technical documents, and general purpose poster-making.

You can extend your application capabilities even further with incredible leading technologies such as varnish, white ink, and raised texture printing, and complement with smart cutting and finishing accessories. In fact, your potential to profit from creating high-value output is limited only by your imagination.

GRAPHIC DESIGN SYSTEMS SOLUTIONS ARIZONA SERIES

Canon Arizona UV flatbed printers are all based on a true, stationary platform delivering exceptional image quality and application versatility. These printers can print directly onto rigid substrates or, based on model, can also print on roll media. The prints are suitable for indoor and outdoor use and the inks are GREENGUARD Gold certified. Arizona series printers give professional print service providers the ability to offer premium printing services.

- · True stationary flatbed versatility and performance at an exceptional price
- FLXflow* Hold to help reduce the need for taping and masking
- Optional FLXflow* Float for easier handling of substrates
- 4-, 6-, or 8-channel models with white, varnish, light cyan, and light magenta inks
- Roll Media Option available for true roll-to-roll capability
- VariaDot imaging technology for near-photographic results
- · Instant switching between flatbed printing and optional roll-to-roll
- ONYX Thrive enables a true end-to-end PDF workflow from digital file submission through color management, printing, and cutting

GRAPHIC DESIGN SOLUTIONS COLORADO M-SERIES

Colorado series roll-to-roll printers are designed to deliver accurate, repeatable prints at high print speeds. With FLXfinish⁺, the Colorado printer series can print matte and gloss on one print, in one pass, to create beautiful and striking output! The newest member of the family, the Colorado M-series, was designed to allow you to say "yes" to more jobs, create stunning applications, and reduce turnaround times. Its modular architecture allows it to grow with your business, and is designed for low cost of ownership.

- · Fastest 64" production printer in its class to help reduce production times
- · Optional UVgel white ink* helps reduce hassles related to printing with white ink
- · Easily add speed*, dual-roll capabilities*, and other features as your business grows
- · Use FLXfinish+* to print matte and gloss on the same print without varnish
- · Create micro textures on prints with FLXture*
- · Lower ink usage can help lower production costs
- · Unattended production helps enable labor savings
- · Highly accurate color and geometric consistency help to reduce rework and waste
- · Jumbo Roll and Wallpaper Factory capabilities help create labor savings
- ONYX Thrive enables a true end-to-end PDF workflow from digital file submission through color management, printing, and cutting

GRAPHIC DESIGN SOLUTIONS imagePROGRAF GP SERIES

The GP series printers are the world's first large-format printers with aqueous pigment Fluorescent Pink ink*, equipped with Canon's unique Radiant Infusion which layers the Fluorescent Pink ink with other inks on the paper surface during printing to create bright and soft color reproduction.

The 44" GP-4000 and 24" GP-2000 are 10-color plus Fluorescent Pink ink large-format printers. With the Red, Orange, Green, Violet, and Fluorescent Pink inks, the imagePROGRAF GP-2000 printer has the largest color gamut of any imagePROGRAF printer to date.

- imagePROGRAF GP series, the world's first* aqueous inkjet models to include Fluorescent Pink ink
- The world's first PANTONE® calibrated printers for PANTONE® PASTELS & NEONS GUIDE coated
- Intelligent Media Handling
- · Built-in color calibration

ColorWAVE T65

PRODUCTION CAD / TECHNICAL DOCUMENT SOLUTIONS **COLORWAVE SERIES**

Push the boundaries of your large-format printing with the colorWAVE series printing system, a monochrome and color printer, scanner, and copier in one convenient single footprint. Gain a competitive edge with distinctive high-quality wide format drawings and presentations without the need for expensive coated paper. With its intuitive design, the colorWAVE series color printer is designed for easy end-user walk-up capability using ClearConnect controller software.

- The prints are instantly dry with the patented CrystalPoint technology
- Designed to help ensure robust, waterfast prints with sharp lines, high readability of fine details, and smooth, even area fills
- · ImageLogic Technology turns imperfect originals into high quality copies and scans
- Built-in security features
- · Integrated job submission software
- · 2 6 rolls capacity
- Up to 25,000 square feet per month

* D-size (34 x 22 in) / A1-size (841 x 594 mm).

• Up to 4 D-size prints per minute*

The plotWAVE series is ideal for decentralized low-volume to mid-volume walk-up printing environments. These devices are utilized by workgroups of monochrome CAD professionals who require both productivity and ease of use, leveraging the latest controller hardware running Windows 10 IoT Enterprise LTSC 2021 (64-bit) operating system, and new standard security features. The Scanner Express IV option integrates directly on top of the printer for a Single Footprint MFP configuration.

- ImageLogic Technology designed to turn imperfect originals into high quality copies and scans
- Radiant Fusing Technology eco-friendly fusing method, providing instant-on printer availability with no warm-up time
- · Integrated job submission software
- Built-in security features
- Up to 6 rolls capacity
- Up to 60,000 square feet per month

TZ-32000

PRODUCTION CAD / TECHNICAL DOCUMENT SOLUTIONS imagePROGRAF TZ SERIES

The imagePROGRAF TZ series seizes and expands the production aqueous inkjet market with its ability to print black-and-white line drawings and full-color posters on multiple media substrates that LED devices are unable to support. The hybrid model is uniquely qualified to capture market share where overall print volumes are trending lower and the need to get more out of a machine is a business necessity. The MFP includes the Z36 scanner and intuitive system controller, making it a powerful addition to Canon's portfolio of large-format printers perfect for scanning maps, drawings, and renderings.

- 5-Color LUCIA TD pigment ink with newly formulated magenta ink
- Intelligent Media Handling that is 34% faster than previous models

36" Wide

- Up to 4 D-size prints per minute*
- Up to 243 D-size prints per hour*
- Integrated 100-print capacity top stacker
- Dual-roll Intelligent Media Handling System that detects media type width and length
- Scan monochrome drawings at up to 13" per second and color up to 6" per second**

imagePROGRAF Large-Format Media

Canon media delivers consistently superb image quality and product performance. Rigorous testing helps ensure compatibility with imagePROGRAF printers to provide the best image quality possible.

Canon has the media to help meet your needs. Drafting designs, producing point-of-purchase displays, and creating photographic and fine art reproductions can all be accomplished with Canon imagePROGRAF printers and media.

PHOTOGRAPHIC

High-end photography and portraits demand excellent photographic paper, and Canon offers a wide variety to meet these printing needs. Accurate, clear reproduction of digital images is a breeze with Canon photographic and glossy media options.

FINE ART

Special art work deserves special media. Paintings and digital art superbly reproduce on imagePROGRAF Fine Art Media. Available in canvas, baryta, etching, and water resistant styles, imagePROGRAF media can meet every fine art printing challenge.

SIGN/BANNER/DISPLAY MEDIA

Eye-catching signs, bulletins, and announcements are easy to create with Canon large-format printers. To suit every application, our sign and banner media are tear-resistant and offer a variety of special features, including adhesive backing, vinyl coating, water resistant, and repositionable.

COATED/BOND

Blueprints, maps, schedules, and sketches are ideally rendered with Canon large-format printers. These media are ideal for engineers and architects as well as CAD and GIS applications. For everyday use and draft printing, Canon has a wide variety of durable, inexpensive coated paper, available in both 150-ft. rolls and 300-ft. rolls (as well as 30-inch rolls).
