with powerful workflows, e-forms
and intelligent document management.

Canon

Laserfiche®

Laserfiche creates process automation and enterprise content management software that allows you to **deliver digital-first customer experiences and harness the power of data to promote business growth.**
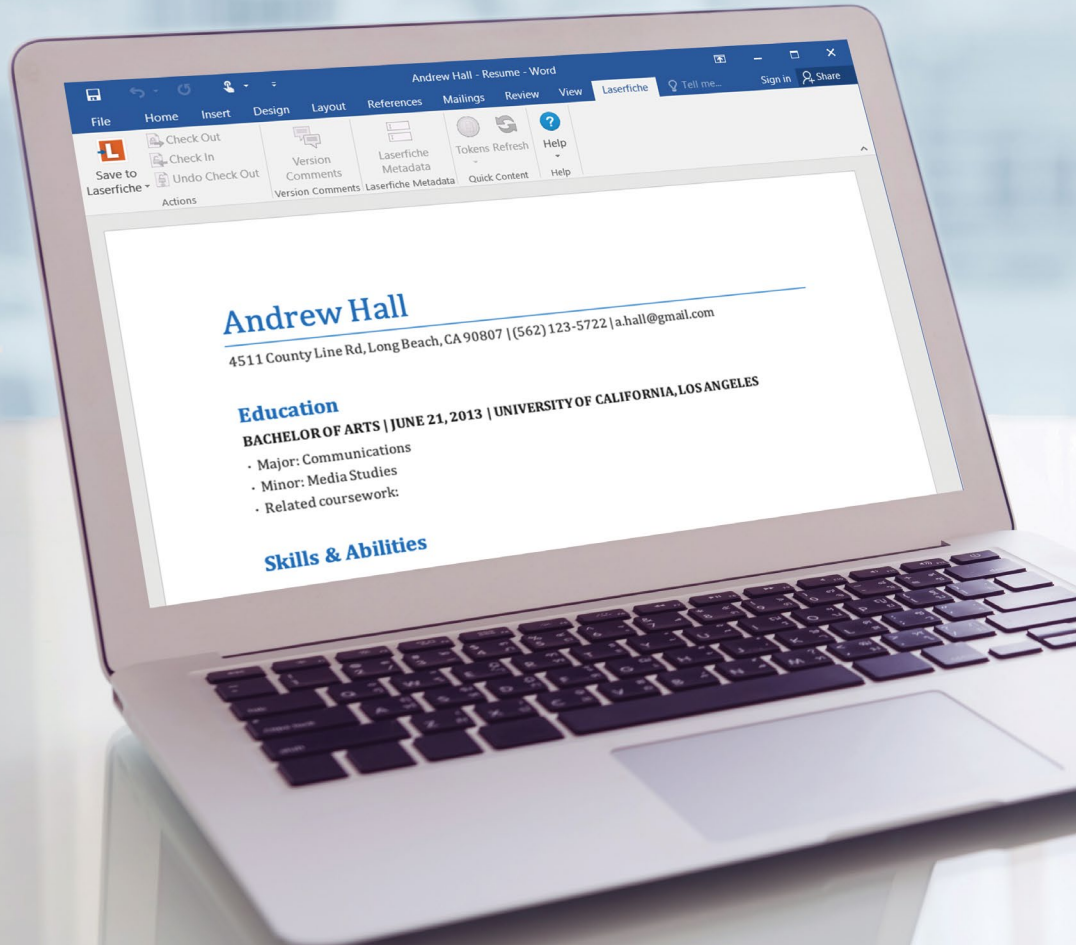

With powerful digital workflows, e-forms, document management and analytics, employees can get more work done faster. Laserfiche streamlines and accelerates your business processes so you focus on what matters — the people and ideas that **drive your business forward.**

SIMPLIFIED INTEGRATIONS

The powerful capabilities of Laserfiche allow it to work with some of today's most popular devices and applications. Here are just a few of the many integrations Laserfiche offers.

Software Integrations

- Microsoft
- ESRI
- Salesforce
- SAP
- Google
- Docusign

THE LASERFICHE PLATFORM

The powerful capabilities of Laserfiche enable organizations to automate business processes and securely manage content while eliminating paper, optimizing costs and powering innovation.

Making your organization's documents, videos, photos and more available to everyone who needs them — when they need them — is crucial to remaining competitive and getting the most out of your content.

Dynamic forms, reporting tools and a holistic view of processes gives you the insight to increase efficiency while delivering a better customer experience.

- Collaboration
- Integrations
- Analytics & Reporting

Process Automation

Eliminate manual processes with powerful workflows, e-forms and analytics.

- **Eliminate tedious spreadsheets, back-and-forth emails and time-draining busywork** by automating everyday tasks.
- **Get rid of paper forms** while speeding up routing and approval processes with automation.
- **Use software bots** that free up staff to focus on more valuable and productive work.

Content Management

Digitally capture, secure and organize documents across the enterprise.

- **Go paperless, optimize costs and power innovation** with a content management platform.
- **Capture, scan and import documents** from anywhere.
- **Meet the increasing demands of compliance regulations** with robust security and records management features.

Platform Services

Support compliance, integrate applications and drive information security.

- **Utilize security audit features that support compliance** without compromising the user experience.
- **Leverage powerful analytics** to identify process bottlenecks and improve efficiency.
- **Make process and information management seamless** with innovative integration tools.
- **Reduce long email threads and boost productivity** with collaborative document editing.
