Large Format Specialty Print Media

Fine Art Baryta, 310gsm

This media is ideal for images with deep black and rich color, dark room prints, and fine photographic reproductions. Fine Art Baryta offers all of the rich tonality, depth, and feel of a traditional darkroom print. The paper has an elegantly smooth finish and subtle reflectivity. Fine Art Baryta has a pleasant neutral white tone imparted by a 100% barium sulfate (baryta) layer. Baryta adds natural richness to portraits and landscapes. Black & White images benefit from Fine Art Baryta's deep blacks and exceptional contrast.

Canon Fine Art Papers

Special art work deserves special media. Paintings and digital art superbly reproduce on imagePROGRAF Fine Art Media. Available in canvas, baryta, etching and water resistant styles, imagePROGRAF media can meet every fine art printing challenge.

imagePROGRAF media goes through rigorous testing to ensure compatibility with Canon printers in order to provide the best image quality.

Applications

- High Quality Photographic Printing
- Photo & Fine Art Reproductions
- Artist Portfolios
- Portraits
- Gallery Exhibition Prints
- Monochrome and Sepia Prints
