

## NA10 NETWORK ADAPTER

Create Ethernet network connectivity with the NA10 and a compatible imageFORMULA document scanner.\* When connected to a compatible imageFORMULA document scanner,\* this network adapter provides the ability to share a scanner in an office environment and scan from desktop applications. Users can also initiate a scan from a compatible mobile device, such as a tablet or smartphone, using the Canon CaptureOnTouch Job Tool app,\*\* if the network has Wi-Fi® capability.▲

### Network Connectivity

The NA10 creates a network connection that allows multiple users to share access to a single, compatible imageFORMULA document scanner.\* In addition, the network connectivity allows a user to scan, create a digital file, and then send the file to a network folder directly from the compatible document scanner, without using a PC.

### Simple, Flexible Design

The compact design of the NA10 fits easily next to the existing scanner, even in small spaces. The NA10 also uses the existing scanner's power supply, saving workspace and reducing clutter.

### Customer Care

A one-year Advanced Exchange warranty is included.

# NA10

## Network Adapter

### Specifications

#### Interface

Scanner:	USB 2.0 Hi-Speed
Network:	Ethernet 10/100/1000 Base-T x 14"
Power Consumption:	5.6 W
