OFFICE PRINTING AND SOFTWARE SOLUTIONS	LARGE FORMAT PRINTING	PRODUCTION PRINTING	MANAGED SERVICES

Multifunction Devices – the imageRUNNER ADVANCE DX series includes high-speed, high-performance digital color and monochrome multifunction systems that can satisfy the demanding needs of the light-production marketplace and high-volume office environments. These digital multifunction models rapidly print, copy, fax, scan, and distribute documents to help drive your organization to new levels of performance and productivity. Our technology ensures consistent usability and functionality throughout all of our models.

Even on the go, you are in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system, while multilayered solutions safeguard confidential information and support security compliance.

Service and Software Solutions – designed to meet your digital office needs. In conjunction with our development partners, we created robust software and hardware solutions to address the unique requirements for Higher Education, K-12, and State and Local Government.

Document Scanners – we offer a wide array of high speed mobile, office, networked, production, and check scanners. With our high-speed precision feeding technology, compact design, high-speed color capability and flexible configuration options, we can make converting paper documents easier.

Large Format Printers – designed to provide exceptional speed, flexibility, and quality. Whether your department is drafting designs, producing posters, or creating photo reproductions, with our specialized customer solutions and applications range, we have the right media for the job.

Production Digital Presses – proven, scalable cut-sheet production printing systems customized for your operations, backed by our unparalleled award-winning service. Our black-and-white and color digital presses deliver uncompromising image quality, text quality, productivity, and versatility. Our production technology will enable your organization to print more jobs faster, thereby increasing efficiency and productivity.

Professional Services – Canon U.S.A. has the team of experts you need to help you. From pre-sales analysis to post-sales support, our team of technical professionals draws upon decades of technical expertise and real-world experience to help you acquire the right technology, solutions, and services for your organization.
