Printer/Ink Compatibility

PM24 is recommended for use with dye and pigment inks in most of today's inkjet printers.

Finishing Recommendations

PM24 can be overlaminated with both thermal (max. 185 °F) and pressure-sensitive laminates. Make sure that prints are completely dry prior to laminating. Cold pressure-sensitive adhesives are recommended for mounting.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
