SQUAREFOLD TRIM MODULE
Booklet Squarefolding and Trimming in One

Combines **Square Folding** and **Trimming** in One Module. **An Industry First.**

SQUAREFOLD TRIM MODULE

Print needs to work harder and smarter than ever before. The all-new Morgana SFT SquareFold Trimmer module is the perfect complement to any Corporate Reprographics Department (CRD) or office looking to add value to the finished booklet.

The industry-first Morgana SFT delivers two functions in one—booklet square folding and trimming.

Simply insert a stapled and folded booklet and out comes a professionally finished document with the sharp squarefold spine and trimmed front edge.

OPERATOR-ASSISTED THREE-SIDE TRIMMING

Not all customers have access to a guillotine or the time to use one for short-run jobs.

The SFT module can also process booklets for bleed trimming book by book in an operator-assisted process. Full bleed booklets are now an option for small CRDs or office installations.

WIDE APPLICATION RANGE

The Morgana SFT has an incredible booklet compatibility, ranging by size from Junior Legal (5" x 8"), through Letter size landscape books, all the way to 12.6" x 12.2". It processes up to 50 sheets of 20-pound bond paper stock. Getting professional results from your existing staple-and-fold finisher has never been easier.

Small **Footprint.**
Big **Impact.**
A **Companion** for Any
Printing Operation.

THE USER INTERFACE

The touchscreen interface helps operators of all skill levels get the most out of the system with lots of graphics and guided setup and start.

LINK IT TO A WIDE RANGE OF PRINT ENGINES

By using the optional adjustable conveyor attachment, books can automatically pass between the print engine booklet maker to the SFT, enabling a nearline squarefold and trim option.

THE LOOK OF A PERFECT BOUND BOOK

The module is equipped with the heavy-duty SquareFold module you find in Morgana's larger Booklet Making Systems. This enables booklets made from a wide variety of paper stocks and sizes to have a perfectly formed spine. It also makes the booklets easy to stack.
The result is the look and feel of a Perfect Bound book at a fraction of the cost.
